ESTABLISHED 1860

VOLUME NUMBER 91

CAMERON, MILAM COUNTY, TEXAS, THURSDAY, JULY 20, 1950

NUMBER 14

PRIMARY ELECTION SATURDAY JULY 22

ELECTION SUPPLIES GO OUT TO 47 PRECINCTS

Primary election boxes were being delivered to Milam County's 47 precincts Monday by L. A. Petty of Sharp, and all details had been arranged for the Democratic primary to be held on Saturday, July 22, it was announced here today by J. B. White, chairman of the County Executive Committee.

In the final week before the battle of the ballots, on next Saturday, politicians continue to note apathy on the part of the voters and in Milam county where poll tax payments were lower than at any time during recent years, the vote was not expected to be heavy.

Although there are 4 contested county races, and 3 contests in as many commissioner precincts, the usual tempo was not present in the campaign. There will be as usual last minute concentration in the round-up, with the usual number of rumors, charges and counter-charges, but on the whole, the picture was one of resignation over results, and the candidates feeling generally they had done a good job in canvassing the electorate.

The campaign will be closed in Cameron Friday night, July 21 with a county-wide rally being sponsored by the Junior Chamber of Commerce. The rally will be held on the Court House lawn, and will partake of the booming political days before the war when the Executive Committee conducted a speaking tour of the county. The Committee did not sponsor a speaking tour this year.

On Saturday night, July 22, returns from the election will be announced at the Court House as usual under the auspices of the County Committee. A corps of experienced election workers will be on hand to receive and tabulate the vote for the information of the public.

E. L. Massengale Not Candidate For Constable Precinct 2

E. L. Massengale, Constable of precinct 2 at Maysfield, is not a candidate for re-election, he announced here today.

Although Mr. Massengale filed his name for the ballot and his name appears on the ticket, he is giving notice to the voters of Precinct 2 that he does not seek the office.

He said: "Although my name appears on the ticket for Constable of Precinct 2 I am not a candidate and wish the voters to be informed of this fact when they go to the polls on Saturday July 22. I have decided to withdraw from the race and am not asking re-election.

"I sincerely appreciate the confidence of the people in electing me to this office and wish to thank them for their cooperation during the years I have held it."

E. L. MASSENGALE

PRESIDENT SUBMITS WAR PLAN WEDNESDAY

President Truman Wednesday asked the Congress of the United States to remove the ceiling on the size of the armed forces and for an appropriation of \$10 Billion to prosecute the war in Korea.

Mr. Truman also asked for authority to allocate materials if necessary in a message which preceded an address at 8:30 p. m. Central Standard time to the people of the United States and to the world.

The president asked for twice the amount of money for the war in Korea than was anticipated. It was agreed that the Congress would have no option than to provide adequate funds for the war.

Reaction to the President's request of the Congress throughout the nation was a general feeling that war was imminent, but leaders in Washington were inclined to say that the President was merely taking precautions to meet any eventuality that may arise.

If the Congress authorizes removal of the ceiling on the size of the army, new draft quotas would come quickly.

NEW ROAD CONTRACT IS AWARDED

LABOR SUPPLY SOUGHT FOR COUNTY

\$125,824 COST NEW FARM TO MARKET ROAD

Contract has been let for a new farm to market road from San Gabriel to Pettibone by the State Highway Department at a cost of \$125,824.00.

The contract calls for 13.6 miles and was awarded to T. E. Sanderford of Belton. This road was one of a number included in contracts let by the Commission Tuesday.

The road was designated more than a year ago and is regarded as one of the most important roads because it means connecting two sections of the county and is in line with the general plan to build roads so that all sections of each county will be accessible.

This road is one of the longest authorized anywhere in this section of the state. It does not include the bridge over Little River at Norman Valley but no doubt some constructed clover rations were observed. This construction calls for grading, structures, flexible base and one course surface treatment.

Two other farm to market roads are soon to be contracted for, leading from Ben Arnold to Clarkson.

Two Are Injured In Crash Thursday

Two men were injured and one was hospitalized Thursday afternoon when their cars collided head-on on highway 190 west of Cameron.

William Kolwing of Holland suffered cuts and bruises and was taken to Newton Memorial Hospital where he is being treated and Adolph Kretschmar was treated at the Denson Clinic following the accident.

There was no explanation of the cause of the accident which was investigated by Jack Higginbotham, local highway patrolman.

Both cars were badly damaged.

Physical Exams For Draftees In Texas To Begin August 7

Austin, July 13.—Physical examinations for the first Texans called by draft boards will begin August 7, state selective service headquarters announced Thursday.

First inductions will be in September.

Registrants selected by local draft boards will be sent to main army recruiting stations in Texas and Louisiana August 7 to 11 inclusive, Brig. Gen. Paul L. Wakefield, state director, said.

State headquarters is now working on quotas for each of the state's 107 draft boards. Texas has been called on for 1005 men.

"We have to send enough men to the examining stations to be sure we will get enough passed to fill our call," General Wakefield said. "We'll be ready just as soon as we can with the exact figure."

The examining stations are at Amarillo, El Paso, San Antonio, Dallas, Houston and Shreveport, La.

FARMERS COMPLAIN TO OFFICERS HERE

Watermelon thieves were taking a heavy toll in the precious patches of hard working farmers in the vicinity of Cameron.

Some of the producers have appealed to the officers for protection and it was understood some leads may have been developed but so far no arrests have been made.

Information to this newspaper indicated that Cameron boys were joined by Bell County boys in the forays. One farmer said that he had lost about 40 rice melons and said that he had surprised a party of boys in his field and had reported the name of one to the officers here.

Town folks who do not sweat in the fields under the burning sun like the children of Israel under Pharaoh, (turn to page twelve)

EFFORTS MADE TO SECURE PICKERS

An early supply of labor for gathering the Milam County cotton crop is being sought by the Chamber of Commerce it was announced by L. G. Smith who said that he has contact with the Texas Employment Association.

One of the difficulties of labor during the harvest season is the lack of housing facilities at the point of contact in the local community.

Farm labor is usually handled through agents or leaders among the pickers and if they have a central place to congregate the whole matter is simplified. But with the restricted acreage in cotton the need for labor is much less than in previous years but more acute is the fact that too few people live on farms since the advent of machinery.

In the old days Pa and the kids picked cotton while Maw stayed at home and cooked the vittles. Now Paw rides up and down the road in a big car looking for somebody to harvest his crop and since Maw has taken up Canasta the bean pot is empty and the kids are all under nourished to where they cannot do a days work.

Efforts to secure pickers for cotton farmers in the county and to have them early is commendable because it is essential to harvest cotton early before the rains come in the late fall.

In some of the cotton counties steps are being taken to protect allocated labor supply from scalpers and those who lure pickers away under promise of more pay.

Pickers allocated to a given county can be retained long enough to gather the crop they can move north with the harvest and no harm is done.

THIRTY FARMERS GUESTS OF CAMERON LIONS

Camron Lions who plow deep furrows with butter knives and know about agriculture from the banquet table, set a good example by entertaining 30 farmers here Tuesday.

The feature of the program was an address by Dr. D. S. Johnson, director of the Blackland Experiment Station at Temple who emphasized the necessity for preserving soil on farms. He emphasized the need of soil conservation of pasture lands as well as cultivated lands.

A film showing the progress at the station for the past two years by rotating legume crops was shown. He also demonstrated by actual filming how cattle by eating certain grasses increase in weight.

Pictures were shown of cotton fields after the foliage had been removed by dust preparations to get ready for mechanical cotton pickers. Cotton must be stripped of leaves before a cotton picker can be used.

Roy Wright, FHA Administrator, asked the business men to go along on a tour of farms where soil practices and insect control has been in operation for some time.

Mr. Wright said results have been very good and he wanted business men as well as farmers to see what had been accomplished.

Farms to be visited are those of Herman Hoelscher, Henry Tomasek, W. S. Lamkin and Joe Hightower. These farmers said that they highly recommended the early insect control plan and encouraged other farmers who had not practiced these control measures that they should do so and good results would be obtained.

Bill Arthur, program chairman, introduced the farmers and invited them to attend club luncheons.

In opening his address, Dr. Johnson stressed the importance of cooperation between business men and farmers.

Sam Hohenstein, prominent oil man and geologist of Ilam County, made a business trip to Waco recently.

Talent Program To Be Held At Gause Friday Night July 21

The fifth in a series of talent programs will be held in Gause Friday night July 21 at 8 p. m. on the Gause School Grounds, it was announced Wednesday morning by L. G. Smith, manager of the Chamber of Commerce.

Joe Moore, former baseball star of the New York Giants, is chairman of the program and has announced that anyone having talent in that community may participate on the show.

Bill McIntosh will be master of ceremonies and is urging the merchants of the city to attend the program.

MARVIN HARPER

Marvin Harper New Superintendent Of Schools At Sharp

Marvin Harper, has been elected Superintendent of the Sharp High School and with Mrs. Harper and their four sons, have moved to their new home in Milam County.

Mrs. Harper will teach the 5th and 6th grades in grammar school.

Mr. Harper was with the department of Education in McLennan County as a visiting teacher and was attendance officer under the Gilmer-Aikin law. Prior to that time Mr. Harper was superintendent of schools at Mount Calm. He will succeed C. F. Bell as Superintendent at Sharp who has gone to Sharyland near Mission in the Rio Grande Valley.

As a welcome gesture to Mr. Harper and his family the Citizens of Sharp have arranged a barbecue for him at the H. H. Coffield ranch near Davilla.

EXCESS COTTON PENALTY RATE SET FOR COUNTY

The penalty rate for 1950 crop cotton produced on a farm in excess of the farm marketing quota will be 15.5 cents per pound, as announced by Paul G. Graves, chairman of the Milam County PMA.

This is 50 per cent of parity of June 15.

Under the Agricultural Adjustment Act of 1938 as amended, whenever farm marketing quotas are in effect for a crop of cotton, a producer for whose farm a "farm marketing excess" had been determined in subject to a penalty on the excess at a rate per pound equal to 50 percent of the parity price for cotton as of June 15 of the calendar year in which the crop is produced.

The chairman explained that until the penalty on the farm is paid, all cotton produced on the farm marketed by the producer is subject to the penalty and is a lien on the entire crop will be in effect in favor of the United States.

The act also provides that any pro-

W. W. MARKHAM ASKING RE-ELECTION

W. W. (Dock) Markham, Commissioner for precinct No. 2, is a candidate for re-election subject to the primary election to be held on Saturday, July 22.

Mr. Markham is now serving his second term in this office and early this year issued a notice that he would be a candidate for re-election and that his formal announcement would appear at a later date. On the eve of the primary election, Mr. Markham said that he was greatly pleased to have pledges of support from all parts of the precinct and was grateful to his friends and supporters, that if he did not see each one personally, he was taking this means to ask for the support of every voter in the Precinct.

Mr. Markham invites your appraisal of his record in this office, and although his second term is not yet over, he believes his record will justify his seeking re-election and invites the people to inspect that record.

He has devoted his entire time to (turn to page twelve)

ROCKDALE MAN MAY BE FIRST CASUALTY

Pvt. E. W. Garza of Rockdale, may have been the first Korean war casualty from Milam County.

Mrs. Magdalena Garza of Rockdale, on Monday received a telegram from Adjutant General Edward F. Witsell, advising that her son has been missing in action since July 5. A letter confirming the telegram was being dispatched to Mrs. Garza and it was presumed that additional details would be given.

Pvt. Garza, it was believed, was stationed in the far East and was among the first American soldiers to reach the battle front in Korea.

Mrs. Garza lost one son in World War II.

AMERICAN LEGION OFFICERS ELECTED

Joe D. O'Neill was elected Commander of Edwin Hardy Post No. 9 American Legion and will take office on August 1.

Dr. Joe R. Parker was elected Vice-Commander.

Other officers elected are John Fuller, Adjutant, H. B. McClellan, Service Officer; Rev. W. T. Carr, Chaplain; Joe Corbran, Finance Officer; J. A. Henderson, Historian, and John Zarosky, Sergeant at Arms.

Commander O'Neill said the Post plans a membership drive for 1951 and officers will be installed with appropriate ceremonies on August 1.

Presbyterians Call John P. Minter; May Not Accept

Rev. John P. Minter of Austin was extended a call to become minister at First Presbyterian Church in Cameron at a meeting of the congregation: Sunday July 16.

Rev. Minter had been approved by the pulpit committee and recommended to the church.

It was understood here that Rev. Minter, widely known as a foreign missionary in China, will not accept the call to the local church.

The Church has been without a minister the past few weeks due to the fact that Dr. W. R. Hall accepted a call from the Presbyterian Church at Fairfield a short time ago.

Mrs. Delfin Schiller of Buckholts transacted business in Cameron recently.

E. A. Camp Hurt In Auto Crash In Hearne Monday

E. A. Camp of Rockdale was seriously injured Monday, July 17 at a signal crossing in Hearne when his car was involved in a crash with another machine.

Mr. and Mrs. L. W. Beard and their two daughters, occupants of the other car were treated for minor injuries.

Mr. Camp is in the hospital in Hearne and it was said here early Tuesday morning that he suffered a concussion.

Emory B. Camp, son of the prominent Rockdale attorney, said his father had rested well during Monday night and appeared to be making progress.

It was not known here how serious were Mr. Camp's injuries.

FARM TOUR SHOWS BIG SOIL SAVINGS

A tour to observe the results of early insect control measures, the conserving of soil and the observance of the application of liquid fertilizer to cotton and corn and legume rotation and other interesting farm practices was held Tuesday July 11, it was reported by Roy Wright, co-chairman of the Crops and Conservation Committee.

Mr. Wright said that approximately 40 farmers and Cameron business men made the tour to see the progressive farming activities carried out by these farmers.

At the Sealy Lamkin farm three miles east of Cameron, hegari and tion will be authorized in the bottom, and studied. It was noted on this farm that liquid anhydrous ammonia fertilizer had been applied a short time ago to some of the corn. The results obtained were very good.

The next farm visited was that of Hermar Hoelscher Near Elm Ridge, where early season cotton insect control work was observed. Mr. Hoelscher, an FHA farm purchase co-operator, has approximately 32 acres in cotton all of which was treated with two applications of toxephene-DDT Spray.

The next stop on the tour was at the farm of Joe Janek near Ben Arnold. Here was found the most advanced cotton. Mr. Janek planted his cotton the last day of March and (turn to page twelve)

Former Cameron Man Killed Near Archer City on July 4

Ross Davis, former resident of Cameron, was killed in a dynamite explosion in the oil field at Archer City on July 4.

Bert G. Hanson of Archer City was also killed.

The men were preparing to shoot an oil well casing when the dynamite exploded prematurely.

Ross Davis was born in Cameron, but moved to Rockdale when a young man. In 1947 he moved to Archer City with his family.

CHARLES BOGGANS IS FOUND DEAD TUESDAY

Charles Boggan, 53, Milano carpenter, died instantly at 6:40 A. M. Tuesday July 18 in the yard of his home there from a gun shot wound self inflicted.

Mr. Boggan, according to Deputy Sheriff Douglass Baron, was preparing to go to work and members of the family did not detect anything unusual about his actions.

Deputy Sheriff Will Vaughn said that Boggan placed the barrel of a shot gun in his mouth and pulled the (turn to page six)

MRS. R. L. WILLIAMS DIED AT GOLDTHWAITE

Mrs. R. L. Williams of Rockdale and Goldthwaite died at the home of her sister, Mrs. F. F. Mays in Goldthwaite at 10 A. M. Saturday, July 15.

Mrs. Williams was the sister of B. F. Bonds of Cameron and Mrs. J. W. Garner of Rockdale. She was the daughter of the late Mr. and Mrs. John Bonds, pioneers of Rockdale.

Mrs. Williams became critically ill some days ago while on a visit to her sister in Goldthwaite. Her health had been poor for a long period of time.

Mr. and Mrs. B. F. Bonds were in Goldthwaite Thursday to visit with his sister and were notified here Saturday morning of her death.

The body was being taken to Rockdale by Phillip and Lucky, funeral directors, and arrangements were pending. Interment will be made in the cemetery at Rockdale, the hour to be announced later in the day.

Patsy Mullinax has returned from a recent visit with her aunt in Houston.

(Pol. Adv. Paid for by C. W. Voyles, Chairman Travis County Shivers for Governor Club.)

Mineola Officers In Gun Fight; One Dead Another Wounded

MINEOLA, July 12—Two Mineola peace officers settled their differences with guns today. Constable Will Whittle was killed, Acting Police Chief Wesley Taylor was injured.

Police Chief C. M. Barnett, who had turned his office over to Taylor in order to seek election as sheriff, said the two officers had argued over a minor traffic case.

Barnett gave this account: They shot it out in front of the Justice of the Peace office, which is off to the side of the main business section. Mineola is an oil and farming town of about 4,000 people in East Texas.

Whittle fell dead, shot in the shoulder, chest and head. Taylor, a former Wood County sheriff and a peace officer 25 years, staggered 50 to 60 feet to a store in the business section. He collapsed there and was taken to a hospital here. His condition was serious.

Townpeople said the two had been quarreling in recent days over methods of handling a minor traffic accident case. They met this morning in the business section, scuffled briefly, and were separated. A bystander took a gun from Whittle.

At about 11:45 A. M. they met in front of the Justice of the Peace office, which was closed. The gunfire followed.

Buckholts Boys Are Home From World Tour On Navy Ships

Willie Marek, Seaman Apprentice and Frank J. Marek, Machinist Mate Third class, sons of Mr. and Mrs. Joe J. Marek of Buckholts, have arrived in Boston, Massachusetts after a round the world trip in the navy tanker, USS Aucilla, which took them through Panama, Philippines, Japan, India, Arabia, and Italy.

The stop at Italy proved to be especially interesting for while they were there, the boys toured Rome and visited many places of historical importance. They were honored with a visit to the Pope.

Willie enlisted on July 18, 1949 and received his basic training in San Diego, California. Frank re-enlisted in the navy on May 17, 1949.

Guests in the home of Mr. and Mrs. H. F. Lange during the last week were Mrs. Lange's daughters, Mrs. E. F. Courreges and little daughter, Joyce Lynn, of New Orleans, Louisiana, and Mrs. Geneva Pallei and daughters, Barbara Jean and Helen Louis of Temple. Mrs. Courreges will return to her home this week. Mrs. Alma Walle of Temple also was a visitor in the Lange home for a few days.

Mr. and Mrs. T. F. Wright of Floresville and their daughter, Mrs. Peter E. Long of Houston visited relatives and friends in Cameron this week.

ATOMIC BOMB USE CHEERED IN CONGRESS

Mobilization of the nation's military might which would mean the immediate call to arms of almost 1 million men in the National Guard and other reserve units was called for in the United States Senate Wednesday by Senator Lyndon Johnson of Texas.

War jitters were finally waking up somnolent Washington and Representative Bentsen of Texas was cheered in the House of Representatives when he called for use of the Atomic Bomb in Korea.

Generally throughout Congress there was growing apprehension that the United States is in grave peril and following its usual policy of being beaten to its knees while following the diplomats, had made no appreciable preparation to fight.

The war in Korea is no longer a police action but a full scale conflict with Russia making threats on other fronts in Europe notably in Bulgaria and Roumania.

The Russians have assembled a fleet and a reported 80 to 100 submarines in Korean waters.

The situation in Korea was growing worse each day because the United States had not been able to put enough men and equipment in the field to combat a Russian trained north Korean army. The only encouraging factor was the success of American air power but on the ground our soldiers were using pea shooters, trying hopelessly to stop the tank attacks of the Reds.

General MacArthur on Wednesday announced the appointment of General Walton H. Walker of Belton to command U. S. Forces in Korea. He is an exponent of the late General George S. Patton and because of his experience in World War II as a Tank Combat General has been named to lead our forces in Korea.

The cigar smoking section of the army in the Pentagon in Washing-

ton were alternating between coffee urns and the water closet.

In the meantime the diplomats were fascinated by Russia's offer of peace on Russian terms.

Herbert Nance and H. B. McClellan, who were delegates from the local chapter of the Disabled American Veterans, attended the Department Convention at Mineral Wells Saturday and Sunday. Mr. Nance has just completed a term as Regional Commander of the Central Texas region, and Mr. McClellan a term as Regional Adjutant-Treasurer.

Pfc. Fred Boock of Fort Hood, Texas and Temple left for overseas duty Tuesday July 11.

Pfc. Boock married Miss Lorene Matula who is the daughter of Mrs. Gussie Matula of Cameron and Fred Matula of Temple. His former home is Sterling, Kansas and is the son of John Boock of that city.

Save the surface and you save all!

In this case **FEELING IS BELIEVING**

No, the eye does not tell everything—not in this instance:

True, it tells you ROADMASTER is smart. It tells you it's big. It shows, if you watch closely, that this brawny beauty rides level and unperturbed even when road-roughness has its wheels fairly dancing.

A glance may even indicate how much lolling comfort there is here—what wide-open freedom passengers and driver know in this gay traveler.

But how can the eye tell you how you feel touching off the great power that's under this broad bonnet?

How can it reveal the silken, swift-mounting surge of oil-cushioned take-off—smooth, silky, un-

broken, as Dynaflo Drive works its magic?

Even when you watch a ROADMASTER settle down to a long steep pull and crest the top going away, how can it tell you what thrill your spirits get from such ability?

And what can it say of the lift that's yours traveling in a beauty that catches all eyes, swivels passing heads, marks you by its very lines as traveling in as fine a car as any man can ask for?

No, these things you have to feel

for yourself, and we're delighted to help you do so:

Your Buick dealer wants you to know about ROADMASTER first-hand—wants you to drive it, try it, feel it out:

It doesn't cost a cent to arrange such a trial. It can do a lot toward opening your eyes to the day's highest standard of fine-car feel and fine-car action—not to mention "why pay more?" prices.

How about seeing your dealer right away?

Only BUICK has Dynaflo Drive* and with it goes!

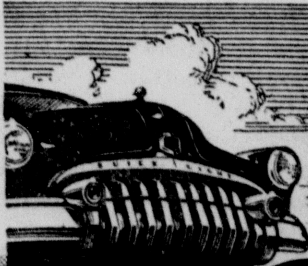

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models

FOUR-WAY FOREFRONT

This rugged front end (1) set... style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

Your Key to Greater Value

Buick Roadmaster

with Dynaflo Drive

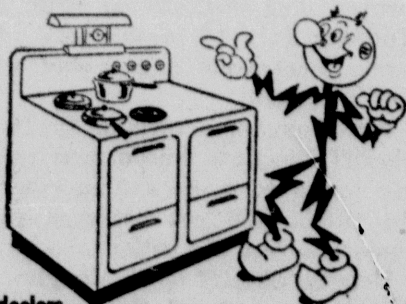

You can expect **more** from an **Electric Range..**

because it has **more** to offer you

An electric range... with its many convenient features... will give you a new outlook on meal-making! You'll discover how easy it is to get (and depend on) delicious cookbook results! You'll spend less time in the kitchen... have more leisure time. Yes, like so many other smart, modern women today, you'll say... electric cooking is the kind of cooking you want. Here are ten good reasons why:

- 1 CONTROLLED HEAT: Accurate temperature control... cuts on and off automatically.
- 2 CLEAN... doesn't smoke your pots and pans.
- 3 COOL... cooking heat goes directly into the vessel.
- 4 SAFE... safe as your electric lights.
- 5 ECONOMICAL... actually saves you money... a very small amount of food shrinkage because it's draftless cooking.
- 6 HEALTHFUL... retains the nutritious minerals and vitamins in the food.
- 7 FAST... a turn of the switch and the high-speed cooking units are ready for use.
- 8 TIME AND LABOR SAVING... cooks a complete meal at one time... allows you to perform other household duties without interruptions.
- 9 DEPENDABLE... an ample supply of low-cost electricity always ready at the flip of a switch.
- 10 MODERN... incorporates the newest conveniences of cooking.

PLACE NUMBER ONE

(Pol. Adv. Paid for by John Cofer and other friends of Fagan Dickson.)

B-29 SHIPS IN FORCE WRECK WEST PORT

TOKYO, July 14—U. S. Superforts, nearly 50 strong, made their first big raid of the war on North Korea yesterday and the Pyongyang radio indicated the target was the key coast port of Wonsan.

A broadcast from the capital of Communist North Korea said more than 30" bombers raided Wonsan and surrounding areas five times. It conceded damage was heavy.

First reports on the Superfort strike did not give the target beyond the fact it was north of the 38th parallel dividing North and South Korea. Wonsan is 80 miles north of the

parallel.

The B-29 Superforts in the heaviest single air blow of the war unloaded 500 tons of bombs on the target. This inaugurated mass precision bombing by two groups of B-29s rushed here from U. S. Bases.

Australian airmen joined U. S. pilots in a series of blows aimed both north and south of the parallel.

There were indications that the air blows had the Red invaders in trouble in some areas. The Air Force report in the B-29 strike gave few details.

The planes flew through rain and mist for the big attack in a railroad center north of the 38th parallel. The strike was put into the air in just eight days the Air Force headquarters said, despite the fact that most planes and personnel had to move eight thousand miles to stage it.

One of the aircraft commanders said "this will make Uncle Joe sit up and take notice."

About 60 per cent of the men are combat tested veterans of World War II.

Texas Population Up Million In 10 Years; 7,500,000

Texas may have gained more than a million people since 1940.

Prospects that it has climbed above 7,500,000 people looked good Thursday.

The apparent clincher was announcement that Bexar (San Antonio) County, has 496,050 people.

With only populous Harris County missing, that brings the State's count to 6,883,236. That's already well above 1940's 6,414,824.

And 6,883,236 is only 616,762 short of 7,500,000.

Harris County—which includes Houston and its massed suburbs—is expected to have more than 616,762. Also announced Thursday was a 406,811 figure for San Antonio—much higher than expected.

The 406,811 figure for San Antonio makes the Alamo City the fastest-growing of Texas' "big four" cities so far reported.

The census of Houston, Texas' and the South's largest city, has not been announced. Dallas, in second place, climbed from 294,734 to 432,805 a 46.7 per cent gain. Fourth-place Fort Worth gained 56 per cent, from 177,662 to 277,047.

San Antonio's figure was about 17,000 higher than even census people had expected.

The figure for the State as a whole is, at this time, an elusive thing. County figures collected during the Summer are revised from time to time, usually upward.

HINTON H. PRUETT

FOR

COUNTY

SUPERINTENDENT

Mr. Pruett has been our superintendent almost ten years. He was born in this community. When he came here our school was in bad shape. The school was heavily in debt. Our whole system was badly disorganized. Community support was sadly lacking.

Today our debts are paid. Our school is now considered one of the best of its type in the state. The community is solidly behind the school program. FURTHERMORE THERE HAD NEVER BEEN ANY INCREASE IN LOCAL TAXES UNTIL THE NEW LAW MADE IT NECESSARY LAST YEAR. This is all due to good management.

Many of us have been working with Mr. Pruett ever since he came here and we are in a position to know him better than anyone.

He is not only an outstanding school administrator, but a community leader of the highest type. He is never too busy to give his time and effort to aid the humblest person in his community.

Mr. Pruett is Chapter Father of the Future Homemakers of America and honorary member Future Farmers of America.

We very earnestly recommend him to you for County Superintendent.

Mr. and Mrs. Perry Armstrong and Mrs. Velma Dobbs were Sunday visitors in the home of Mr. and Mrs. Robert Blocker in Marlin.
Miss Marion McCall of Fort Hood spent the week end with relatives.
Mr. and Mrs. W. G. Lock and daughters, and Mr. and Mrs. Frank Philley and two children enjoyed an outing and fishing at the home of their father and grandfather, G. W. Blansitt Monday. They also visited in the home of Mr. and Mrs. Chas Russell.
Mr. and Mrs. Jesse Wilkerson returned to their home at Bishop Friday.
Mrs. Verna Colburn and Mrs. Frank Barrett visited Mrs. Addie Miller Sunday afternoon.
Mr. and Mrs. Chas Russell and Mr. and Mrs. Bob Griswold attended the reunion and homecoming at Cameron Park Sunday.
Mr. Ladis Klapka and daughter, Evelyn and Bob and Loma Russell left Friday for a visit and fishing vacation at Corpus.
G. W. Allen is visiting in the W. A. Wilkerson home this week.
Mrs. Francis Lesiker and daughter Millie, Mrs. Frank Lesiker and children visited in Houston and Galveston last week.
Mr. and Mrs. T. L. Tolbert of Marlin spent Thursday in the home of her sister, Mrs. Minnie Russell.

Visitors in the home of Mr. and Mrs. Edison Fikes over the week end were Mr. and Mrs. James Fikes of Houston, Mr. and Mrs. Delamon Hays, Houston, and Mr. and Mrs. Forrest of Temple.

Miss Mary Neil McClellan was a recent visitor in Dallas.

CITY MUST ENACT METER ORDINANCE

Parking meters will not be in operation for at least 10 days or maybe two weeks it was said this morning when it was discovered the City Council had been caught napping.

Meters are being installed but the city is without authority to enforce their use by car owners because no ordinance has been passed and the council will have to enact legislation at the next meeting and the ordinance will have to be published in some newspaper.

If it contains the emergency clause it can go into effect immediately upon publication. Car owners and the "rugged individuals" who may view with alarm the institution of progressive methods for handling space hoggers, car have a few days of respite in which to enjoy the business avenues.

The canasta visits on the streets will never be affected by parking meters as they elect to park parallel to just about everything in town and only police action can stop street visiting, social calls in automobiles and bull sessions of female debating societies of the city.

In order to acquaint car owners with what will be expected of them the police department will have cards to be placed on cars as a courtesy until such time as the meter ordinance goes into effect.

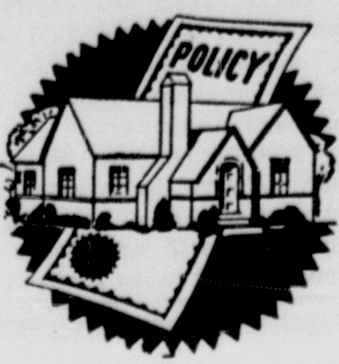

testy until such time as the meter ordinance goes into effect.

Alderman John C. Andres has ordered these cards printed and if you find one on your car keep your blood pressure down to a reasonable level because it does not mean you are to be halled into court without due process of the law.

After the ordinance goes into effect and you see one of these tale signs on the windshield of the family bus you may know you have violated the law.

Police action will be necessary to enforce the deposit of coins with some but if all comply the meters will be a success and can eventually be extended to other portions of the city.

Parking space has become a problem in Cameron and the meters have nothing to do with these conditions,

WE CONTINUE TO RETREAT IN KOREA

TOKYO—July 15.—North Korean communists hurled fresh attacks at both ends of the American defense line in Korea today in an apparent attempt to spring a giant trap on the U. S. forces.

As the new assaults on the American flanks got underway, the U. S. Army announced officially for the first time that the North Koreans had crossed the Kum river, the main American defense line.

The announcement of the Red river crossings was made at the newly established Eighth army headquarters in Korea.

"North Koreans made small advances on the west section of the line," the military spokesman said.

The official announcement said the "main strength of the enemy effort is in the west." That is the area where the communists first crossed the Kum yesterday and from where they were fanning out today after cracking the western end of the American line. Some of the invaders wore American army uniforms.

The other big push from the north was against the South Koreans on the Americans' right flank. It appeared that the communists were seeking to encircle the Americans, bottling them up in the sector north and west of Taejon, front dispatches said.

There also were three new communist attempts to cross the Kum which were hurled back by the American defenders this morning.

Robert Miller, United Press staff Describing the crossing attempt made in the center of the line, Miller correspondent, reported from the front that the North Koreans made the first two assaults near the eastern end of the American line before dawn. A third attack at 8 A. M. in the central sector of the American front also was smashed.

reported: "Five boatloads carrying an estimated 150 troops tried to cross. An American patrol knocked out four of the five boats and sprayed survivors with machinegun and rifle fire.

"Reports to the front line command post said 'the attack was repulsed and no enemy troops reached our side of the river.'"

TOKYO, July 15.—Communist forces of unknown strength established a bridgehead on the south side of the Kum river early this morning in the vicinity of Samgyo, Gen. Douglas MacArthur's headquarters announced in a communique.

CARD OF THANKS

I wish to take this means of thanking each and all my friends for the nice gifts and cards sent me during my recent operation and stay in Valentine.

MRS. W. A. COLLINS BURIED HERE FRIDAY

Funeral services were held for Mrs. W. A. Collins at Marek-Burns Chapel at 5 p. m. Thursday, July 14 with Rev. Percy Corkern, pastor of First Baptist Church, officiating. Interment was made in the city cemetery.

NancyEllen Collins, born October 6, 1871, was the daughter of James F. Vaughn and Eliya Ann Hawkins of Missouri. She was married to Ed Lord June 14, 1890 in Missouri. Three children were born to the couple: Mrs. Sherman Jones of Alva, Oklahoma, Harry, now deceased, and Eva May

Lord who died in infancy.

Mrs. Collins later moved to Cameron where she married Ike C. Hooks, April 28, 1901. The couple had one son, Aubrey, who survives his mother.

She was married to Allen Collins May 3, 1914 in Waco where she lived until 1931. She then returned to Cameron where she lived in her home on North Travis until death July 13, 1950.

Mrs. Collins was a member of the Baptist Church for 25 years.

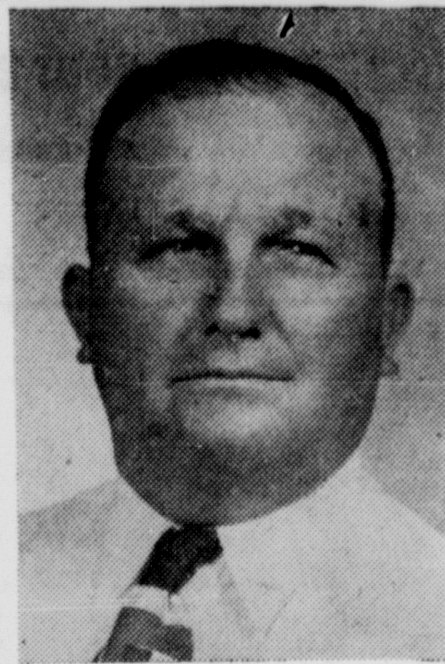

She is survived by her husband, Allen Collins; one daughter, Mrs. Sherman Jones; one son, Aubrey Hooks; one grandson, Clyde Jones of Oklahoma; and one great-granddaughter, Clydene Ann Jones, Oklahoma.

Mrs. E. J. Lewis of Waco is visiting her son, W. H. Fletcher and friends of Cameron.

Mr. and Mrs. L. C. Angell and son, Bernie of Houston, and Mr. and Mrs. Hanning and daughter, Patsy, of Austin, came to the bedside Sunday of Mrs. Angell's and Mrs. Hanning's father, Ruff Wilson, and were Sunday guests in the home of Mr. and Mrs. Frank Angell.

Friends will be glad to know that Frank Perrin returned home after illness in Newton Memorial Hospital.

A REMINDER

Be sure to vote, Saturday July 22. Our candidates are elected by public opinion, so I apply to you for Commissioner Precinct 2, just as anyone would to an employment agency for a position.

If elected I will be one of your public servants to serve you to the best of my ability with all fairness. I hope to keep the friends that I have made and make many more.

Most of you folks have already made up your minds who to vote for when you go to the polls, therefore, I'm taking this means of soliciting your vote and support in Saturday's Primary.

BAILEY F. JONES
(Pol. Adv.)

DO NOT READ THIS

FOR THE

11th Congressional District

To the voters in this district, John L. Bates is seeking this high office on his own merits and not at the expense or disqualifications or any mistakes that could have been made, if there has been any, by his opponent.

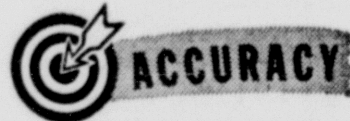

The present incumbent has held this office for about 14 years with a salary of about \$140,000.00. We would appreciate very much if you will give Mr. Bates the same consideration and with the full promise that his accomplishments will be even greater.

His pledge is for a greater REA with a broader program and instead of selling our surplus electricity to utility corporations we think it better to sell the same electricity to our smaller towns and larger cities at a much greater savings than we are realizing today from the tax payers power plant.

As to farm programs, an equal and just allotment for each community and county according to their money crops. The farm program should be broadened and progressed more in the field of soil conservation which we pledge wholeheartedly.

Your vote for Mr. Bates and influence will be highly appreciated and it will mean the interest of all the people in this district and not for just a select few.

(This political ad is paid for by a friend unsolicited and unbeknowning by Mr. Bates.)

CRISIS IN KOREA DEMANDS BIG ARMY

Partial mobilization of the National guard was imminent Saturday and Congress will be asked for 6 billion dollars to pay for the Russian War in Korea.

In the Capital informed sources said that a call for the national guard was imminent.

Senator Lyndon Johnson of Texas said that he had been informed by high administration officials that the national guard and all reservists will soon be ordered to active duty.

Senator Johnson, (D) delivered a speech in the Senate in which he called for a realistic approach to the Korean crisis.

Senator Lucas of Illinois told the Senate that President Truman will soon make a full report on the Korean war.

The American people do not understand why we have been so slow in meeting our obligation in Korea. American forces are taking a beating in Korea because they are not sufficiently re-inforced or equipped to put up a modern fight.

The canasta personnel in the Pentagon was trying to assure the American people that we are not going to be driven out of Korea but the doughboy on the firing line with nothing but a pea shooter and a prayer was not well impressed.

The only thing wrong in Korea is the fact that the communists won't wait until we get our stink balls ready and our sling shots in order.

General Omar Bradley, the doughboy general has made a realistic report to Congress and has told the Big domes it is a tough war and cannot be settled in the Senate restaurant over cocktails and a big steak.

In the meantime we are rapidly being driven out with almost half the peninsula in the paw of the Russian Bear.

The Nat Woffords Injured Thursday

Mr. and Mrs. Nat Wofford of Temple were injured around 1 P. M. on Thursday on highway 190 five miles west of Cameron when their car was overturned.

Mrs. Wofford was driving and was taken to St. Edwards Hospital in Cameron and was still in the hospital but not seriously injured. Mr. Wofford escaped with only minor hurts.

The car swerved to the left shoulder of the highway and across the road to the right and was overturned. It was thought that the brake mechanism went out of control.

EXPERIENCE

Cameron Boy Scouts Return From Trip To National Jamboree

Arthur Martin, Franklin Stewart, Edward Brady, Johnson Green, Dick Jenness and Bobby Balhoyn, Cameron boy scouts, have returned home from the Boy Scout National Jamboree at Valley Forge.

President Truman honored the boys with a speech on opening night, after which they witnessed a colorful pageant which revealed the story of Washington's heroic winter at Valley Forge, one of the events which has become endeared to each American.

All 47,000 boys gathered on Sunday night, July 2, in the big arena for the devotional hour during which a candle lighting ceremony was performed. 47,000 small lights of American freedom!

The boys were thrilled on Independence night by a speech delivered by Dwight D. Eisenhower. Brilliant fireworks lit the sky in celebration of the occasion.

The camp was not a resort of lux-

ury. On the contrary, the boys used their own initiative in preparing their meals in the open; no one slept until the last expecting mother to have breakfast on the table when he got up. Neither did he enjoy the comfort of his bedroom at home. Rather, he slept in a tent. However, this was part of the program to develop individualism in the boys.

The trip back home was no less exciting, for New York City was one of the stops made on their return. They enjoyed a baseball game in Yankee Stadium; they saw the lady who is a welcome sight to all home-

ward Americans, the Statue of Liberty; they explored the Museum of Natural History.

It would be putting it mildly to say that the boys "enjoyed" the trip because as well as being an event to be remembered, the experience gained is invaluable, for each boy broadened his horizon of ideas.

Shack Shafer of Hanover was a Cameron visitor Monday.

Mr. and Mrs. Greer Condray from the Hoyte community are business visitors in the City Monday.

Portion Of Cast For Little Theatre Is Selected

Some of the roles for the first Little Theatre Production, "The Imaginary Invalid," have been selected, Robert Johnson, director, said Thursday.

Other actors for several important parts in the play are still needed and anyone who is interested is urged to attend rehearsals at the Yoe High School Auditorium at 7:30 P. M. Monday.

Paul Ray Laake and Ladelle Quillin

will portray the leading roles, Argan and Tiorrette. Other roles already selected are: Anita Dusek, Angelique; Dalli Green, Beline; Gwenth Flemming, Clate; Betty Jane Sanders, Louis; on; Joe Wardlaw, Bennefoi; and Robert Johnson, Thomas Diafoirus.

The play will be presented during the first part of August with the date to be announced.

Clara Matula has returned from an enjoyable vacation in Caldwell and Temple. Miss Matula is with the Burris-Moseley Variety Store in Cameron.

CHRYSLER IMPERIAL 4-DOOR SEDAN
with Clearbac rear window

Chrysler Imperial

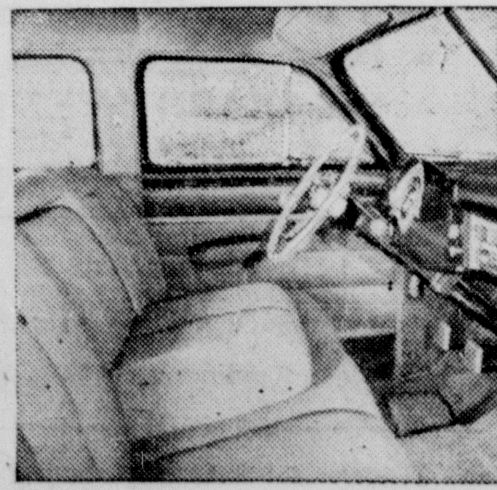

a new car of
unrivalled distinction

This is the Chrysler Imperial..new running mate of America's finest car..the great Chrysler Crown Imperial. With the same luxurious interiors—unmatched in automotive history! With built-in value all the way through unrivaled today! With the quality of materials, the workmanship, and engineering that put every Chrysler in a class by itself! From new Clearbac rear window to the soft, satiny butler-finished chrome of interior appointments... this car is excitingly new! Deliberately built as a challenge to all former standards of what a fine car should be... and should do for you! Come take the wheel. Then carefully compare the built-in value with what the others offer.

There's built-in value all the way through without equal... Waterproof Ignition System... High Compression Spitfire Engine... Fluid Drive... Full Flow Oil Filter... foam rubber seat backs... a Booster Brake... Chrome Wheel Covers—White Sidewall Tires... many other features that, when available at all, are extra-cost on other cars.

Here is distinction in interior décor unsurpassed in any other car, regardless of price. Aristocratic color harmonies combine exquisite wool broadcloth fabrics, top-grain leathers. Chrome is tasteful butler-finished. Window lifts are electrically operated... arm rests, front and rear, are double-width throughout.

Cameron Party Is Home From Two Weeks Vacation

Mrs. T. J. Worinton, Mr. and Mrs. Henry McLane, Mrs. Verna Mae Vick and daughter, Sharon, have returned from an interesting trip through nine states the past two weeks. A look at the itinerary reveals their trip took them from Gatlingburg, Tennessee to Bryson City, North Carolina where they toured Great Smoky Mountain National Park. They visited Chattanooga, Tennessee and New Orleans, Louisiana with a tour through the French quarters. In Nashville, Tennessee, the group attended the Grand

Ole Opry.

The party visited friends and relatives through many other states. Those visited were Mr. and Mrs. Earl Kennedy, Gallatin, Tennessee; Jack Sullivan, Hartsville, Tennessee; Mr. and Mrs. Richard Reese, Terre Haute, Indiana; Mr. and Mrs. Joe Weber and Mr. and Mrs. Gus Weber, Mishawaka, Indiana; Mr. and Mrs. Bob Somerman and Edward Heiser, Chicago, Illinois; Joe Maths, Dayton, Ohio.

Mr. and Mrs. L. E. Thompson and family visited in New Braunfels and other points of interest near San Antonio recently.

Miss Mauryn Messimer is visiting in Mexico City.

Society in the News

Homemakers At Church Have Social

A social hour was enjoyed by the Homemaking Class of First Baptist Church on July 6. Members met with Mrs. I. M. West.

Mrs. C. B. Ford, who is president, directed the program and ten members and one visitor were present. Mrs. Joe Denson led the devotional and prayer was given by Mrs. W. M. Fanning.

Mrs. West served a refreshment course of homemade ice cream and cake.

Mrs. C. W. Hudson will receive a B. S. Degree from Mary-Hardin Baylor College in August. Mrs. Hudson is a member of the faculty at Curry School and has been teaching there for several years.

Miss Aileen Hollas Becomes Bride Of Henry Beck Of Temple

Marriage vows were exchanged by Miss Aileen Hollas, daughter of Mr. and Mrs. Richard Hollas, and Douglas M. Beck, son of Mr. and Mrs. Henry Beck of Temple at St. Monica's Church at 8:00 July 6. Rev. Robert Fuchs, pastor of St. Marys Parish in Temple performed the double ceremony before an altar decorated with ferns, zinnias, roses, and tall white candles.

St. Monica's choir sang "Mother At Your Feet We are Kneeling," "Ave Maria," and "Lord, We are Not Worthy." Miss Christine Michalka of Houston played the wedding music.

For her wedding, the bride, given in marriage by her father, chose a white nylon lace dress over satin, which was styled with a tiny collar, fitted waist, and long sleeves which ended in points over the wrists. Her full skirt extended to the floor, and her fingertip-length nylon of illusion fell from a satin and lace headdress trimmed with lilies of the valley. She carried a white prayer book topped with an orchid with white satin streamers.

Maid of honor, Miss Ruth Beck of Temple, sister of the bridegroom wore a floor-length dress of light blue net over taffeta with ruffles over the shoulders, a fitted bodice, and full three-tiered skirt. She wore a large net hat which matched her dress, wore ruffled net gloves, and carried a pink carnation bouquet.

Miss Eleanor Schmidt of Cameron, bridesmaid, wore a dress fashioned like the maid of honor's in a deeper shade of blue and carried a bouquet of rose colored carnations.

Clarence Schuetze of Temple and George Hollas, brother of the bride, were best man and groomsman respectively. Ushers were Louis Hollas, brother of the bride, and Curtis Beck, brother of the bridegroom. James, Lee and Charles Hollas, cousins of the bride, and Otis Beck, brother of the bridegroom were altar boys.

The bride's mother wore a dress of powder blue crepe with navy and white accessories. The bridegroom's mother chose a teal blue crepe and white accessories. They both wore

white carriage corsages.

Immediately following the wedding, a reception was held at the home of the bride's parents. The bride's table was covered with a lace cloth and was centered with an arrangement of large white zinnias and fern. The white three-tiered cake, topped with miniature bride and groom, was served by Mrs. Albert Kruhl of Austin. Mrs. Leo Hollas served punch. Others in the house party were Mr. Hugo Hollas, Mr. Emil Hollas, Mrs. Raymond Sutter of El Paso, and Mrs. Antone Hanel.

For the wedding trip to Lake Charles, Louisiana, Mrs. Beck chose a blue bolero suit with white blouse and accessories. Her corsage was an orchid.

Mrs. Beck is a graduate of Yoe High School and Providence Hospital in Waco. She is employed as a registered nurse at the Veteran's Hospital in Temple.

Mr. Beck (a veteran of World War II, served with the army more than a year. He is employed by Wilson Produce in Cameron.

Sissy Farmer Will Marry Edwin Stecher

Mr. and Mrs. J. C. Farmer, 2800 Cole Avenue, Waco, announce the approaching marriage of their daughter, Anna Louise (Sissy) Farmer to Edwin Stecher of Cameron.

The wedding date has been announced as August 26 and will be held at the Church of Assumption.

CHRISTIAN SCIENCE SERVICES

"Truth" is the subject of the Lesson-Sermon which will be read in all churches of Christ, Scientist, on Sunday, July 23.

The Golden Text is: "God shall send forth his mercy and his truth" (Psalms 57:3).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "He is the Rock, his work is perfect: for all his ways are judgment: God of truth and without iniquity, just and right is he" (Deuteronomy 32:4).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the scriptures" by Mary Baker Eddy: "What is termed material sense can report only a mortal temporary sense of things, whereas spiritual sense can bear witness only to Truth" (Page 298.)

JOHN OLSON BURIED IN CAMERON MONDAY

John T. Olson, 64, a former resident of Cameron, died at 6:30 P. M. Saturday, July 15 at the family residence in Houston where he had made his home for a number of years.

Mr. Olson had not been active for the past fifteen years because of ill health and the family moved away from Cameron some 10 years ago, living in Austin and later moved to Houston.

Mr. Olson was a native of Williamson County, born in Georgetown of Swedish parents who were pioneer settlers. He became a linotype operator while a young man and worked for the Williamson County Sun. He moved to Cameron sometime prior to 1920 and was employed by the late H. B. Terrell who owned and pub-

lished the Herald at that time.

When the late W. M. Cobb repurchased the Cameron Enterprise from the late T. N. Herring, the deceased became associated with that publication and continued until ill health brought about his retirement.

Funeral services for Mr. Olson were held at 4:30 P. M. Monday July 17 from the Chapel of the Green Funeral Home by Dr. Mark C. Magers, Pastor Methodist Church. Interment was made in Oak Hill.

Survivors are his widow of Houston, three daughters, Mrs. Frances Borsche of Pasadena, Mrs. Howard McElroy of LaFayette, Indiana and Miss Tommy Lenora Olson of Houston.

Mrs. R. M. Denning and little son, William Charles, will arrive in Cameron on Friday, July 14 to visit with friends and relatives in Cameron. The Denning are from Houghton, Michigan, and Mrs. Denning will be remembered as the former Miss Helen Green, daughter of Mrs. C. N. Green of Cameron.

Girl Scouts Hold Style Show Here To End Sewing Week

Girl Scouts climaxed their weeks sewing activities with a style show at Yoe High School, Friday, July 7.

Anita Trdy was master of ceremonies and served as narrator while the following girls styled the garments they had made: Rudolphine Hollscher, sun dress; Barbara Ann Mondrik, sun dress; Betty Lou Raska, school skirt and blouse; Lydia Marie Krenek, halter and skirt; Dorothy Dillon, jumper dress; Janice Marie Bridges, school dress; Gale Gay Griswold, shorts and halters; Jackie Jay Mauldin, sleeping shorts; Barbara Jane Gurecky, printed peasant blouse; Marye Horstmann, play dress and bolero; and Theresa Wohleb, skirt and blouse for school. Charlotte Pembroke started some pajamas that she did not finish, and Louise Johnson finished a skirt and gathered halter but was unable to style Friday. Anita modeled her sport blouse.

Marye Horstmann sang a girl scout song as a concluding number. The class was under the direction of Mrs. W. T. Whatley, Jr., Mrs. Alva Sanders, Mrs. August Gurecky, and Mrs. Louis Raska.

Guests for the show were: Mrs. Lincoln Mondrik, Mrs. Erwin Hrozek, Mrs. A. L. Horstmann, Miss Beverly Schiller, Miss Lois Horstmann, Mrs. J. D. Moore, Miss Darlene Moore, Mrs. A. O. Bridges and Miss Kay, Mrs. R. E. Griswold, Mrs. Roy Wohleb, and Mrs. Louis Trdy and Miss Doris.

4-H Club Girls And County Agents Return From Encampment

4-H Club girls Bettie Lee Graham, Evelyn Swanzy, and Bernice Fischer, and adult leader, Mrs. Iva Lee Graham, and the County Home Demonstration Agent, Mrs. Bertie H. Alford, attended the District 4-H Encampment at Buchanan Dam on June 27-29. The group reports a very educational and inspirational trip although they arrived home mosquito-bitten, blistered and tired.

The 80 people attending from 17 counties enjoyed various types of recreation, craft work and relaxing.

The group was delighted to have Rev. and Mrs. Bracher, parents of the District Agent, Miss Margaret Bracher, of Fredericksburg visit the Camp on Tuesday. Rev. Bracher delivered the devotional service for the camp group that night.

Enroute from Buchanan Dam, the Milam County group enjoyed a watermelon party at Taylor Park.

Miss Irene Juneck is visiting in the home of Mr. and Mrs. Frank Juneck at San Angelo.

Mr. and Mrs. John Kennon and daughter, Mrs. Joyce Burt and two children, Jerry and Linda all of Houston were guests in the home of Mr. Kennon's mother here.

Miss Leola Richter, daughter of Mr. and Mrs. Adolph Richter has returned from Austin after a visit in the home of Mr. and Mrs. Joe R. Walzel Jr.

Mr. and Mrs. Albert Small and little grand daughter, Brenda Joyce Ford visited in Cameron last week enroute to their home in Houston after enjoying a vacation.

CAMERON, TEXAS

Mr. and Mrs. H. W. Boedeker and daughters, Jo Ann and Carolyn Jean of Houston visited in Cameron a few days this week enroute to their home after a vacation in Old Mexico and other points of interest. Mr. Boedeker visited his brother and sister, E. H. Boedeker and Mrs. John Jistel and other relatives in Cameron. They reported a very interesting vacation in Mexico.

Mrs. Myra Jistel with the Western Union at Hillsboro is working with the Western Union in Cameron while the local operator, Mrs. Luther Todd is on vacation.

Mr. and Mrs. Franklin J. Dusek and son Bernay have returned from a summer vacation in South Carolina. They reported the trip as a much enjoyable one.

your own ALL-CROP Harvester

TO HARVEST SEEDS...

Get full returns from every acre of seed. With your own ALL-CROP Harvester, you are equipped to catch the crop at its peak and save more seed from every acre. These features mean outstanding performance in more than 100 different crops—including those you have to harvest.

1. Header that combs the ground for short crops, reaches high for tall ones. Hydraulic control optional.
2. Full-Width Cylinder with rubber shelling contacts.
3. Air Blast Separation as seed leaves cylinder, separates much of the seed from straw at this point.
4. Extra Threshing Capacity with oversize strawrack.
5. Saw-Tooth Wind Control Valves give right flow of air for every cleaning problem.

U. S. FORCES MAY LOSE KOREAN FIGHT

American defense lines at the Kum River in South Korea have been broken by the Communist Army and United States troops are in retreat. The situation was desperate despite the efforts of military leaders to smooth over the disaster which has befallen the defenders of Southern Korea ever since the invasion. It was announced early Monday morning that the air field at Taejon had been abandoned, and this is the last field outside of Pusan that can be used for landing large military aircraft. The Red Army out-numbered the

defenders by about 10 to 1, and with the use of tanks have over-run all the possessions held in that area. Corju had fallen into the hands of the Reds and the entire river front was in the hands of the invaders.

Meanwhile, in the City of Washington, the Pentagon Army was getting fresh supplies of cigarettes and rushing the coffee urns. The only thing needed was a few divisions of United States Marines and artillery and anti-tank guns capable of blasting Red armor.

Reinforcements were being rushed to the war front, it was said, but there was some doubt whether even a substantial bridgehead can be held in South Korea. It appeared that defenders of Southern Korea might be forced to abandon all efforts to save the country. Headquarters of General Douglas MacArthur has issued statements that were reassuring, but the facts do not make for any hopeful signs that the war can be successful at this time.

In Washington, President Truman was preparing to call up the National Guard and Reserves, and to make a report to Congress on the Korean situation with a request for some \$8 billion to be spent in defense of South Korea. Military officials in the capital were stunned over the news that a new American retreat had taken place South of the Kum River.

It was the re-enactment of the old Democratic tragedy of too little and too late. Meanwhile, Moscow was dangling a bid before the eyes of the American State Department, proposing settlement of the Korean War. Joseph Stalin has written a letter in which he sets out the conditions under which he will stop the war. At least, there is no doubt about who is responsible for the invasion of Korea.

Diplomats, especially those representing the Democracies, usually lose their heads and sell out their country when a peace bid is made and there seems little doubt that Moscow will win some sort of Victory in the end after American forces have been run out of Korea, and the Communists have gained control of the United Nations.

JOHN BATES For Congress.

The Bob Terrys Are Now in Colorado

Mr. and Mrs. Bob Terry are now on their way to Colorado where they will spend some time on a vacation and to visit with their son, Howard Terry and family who are also vacationing in the West.

Mr. Terry has closed his grocery store for the summer and may not be open until school starts. He has been enjoying a few weeks at his farm with his livestock, has been fishing and visiting friends in other parts of the state and finds that the respite from his business has been very beneficial.

LOCAL GUARD UNIT BEGINS TRAINING

National Guardsmen attached to the 649th anti-aircraft battery in Cameron have reported in part to Fort Hood for two weeks of training and another detachment will leave on Sunday for Fort Hood.

The first unit of some 40 men in the national unit left for Fort Hood on Wednesday.

While these guardsmen are reporting for routine duty in what is known as the summer training program, the war in Korea has caused more than usual significance to be attached to all military personnel in reserve corps units as well as members of the National Guard. There was some agitation in Washington for the Guard to be called up for active military duty.

Cameron Guardsmen have been training for more than 2 years. Men who enlist in the National Guard are not subject to draft but may be mobilized because they are already a unit of the fighting strength of the country.

The local guard unit still has openings for enlistments and it is pointed out that young men may get advance training by becoming a member of this battery and are assured that if they are called to active duty they will be permitted to serve with their own outfit and among their own buddies, with local officers, and there are other advantages in the National Guard.

Mrs. Bill Hlovacek, formerly Rita Mueck was recently promoted as head of the bookkeeping department of the Port City Bank in Houston. Mrs. Hlovacek was reared near Cameron and is a graduate of Yoe High. Her many friends will be glad to hear of her advancement.

MRS. W. A. COLLINS DIED IN CITY THURSDAY

Mrs. W. A. Collins died at her home on North Travis at 5:45 Thursday morning, July 13.

Mrs. Collins was born in Missouri in October 6, 1871 and for the past 50 years has been a resident of Cameron. She had been an invalid for six years.

Funeral services were held from the Marek-Burns chapel at 5:00 P. M. Friday, July 14, by Rev. Percy Corkern, pastor of First Baptist Church, with interment in the old City Cemetery.

Survivors include her husband, W. A. Collins of Cameron; one son, Aubrey Hooks of Huntsville and one daughter, Mrs. Sherman Jones of Alva, Oklahoma. One grandchild and one great grandchild also survive.

Mr. and Mrs. Bill Storey, Sr. have returned to their home in Cameron after spending several weeks in Valentine visiting their son, Bill Storey Jr., and their daughter, Mrs. Pharr.

I'm a Veteran of World War II and served almost four years in that conflict doing what I could for my Country.

I WILL APPRECIATE YOUR SUPPORT ON SATURDAY JULY 22 FOR
COUNTY CLERK OF MILAM COUNTY

ROBERT A. FINDLEY IS FOUND DEAD AT HOME

Robert A. Findley, 31, an employee of the Cameron Compress Company, was found dead in bed at his home on East 11 Street around 8:30 A. M. Sunday, July 16.

The cause of his death was not determined, although a physician was called to the residence after the body was discovered by Mrs. Findley. The probable cause of death, it was said, was a heart attack or cerebral hemorrhage.

Mr. Findley and family had returned last week from a vacation trip to Johnstown, Pennsylvania, where they had visited friends and relatives for two weeks. He had been an employee of Cameron Compress Company for the past 18 months.

During World War II, he served with an intelligence group of the 47th Bombardier Squadron operating B-29 bombers. In the service he was closely associated with Walter Dossett, of Waco, part owner of the Compress in Cameron and a brother of Mrs. Stanley Swift of this city.

Surviving are his widow, Mrs. Irene Findley and a daughter, Cheryl Irene; father, Frank Findley of Johnstown, Pennsylvania; one brother, Harold

Findley of New Jersey, and one sister, Mrs. Bernice Nolan of Johnstown, Pennsylvania.

The body was taken to Marek-Burns Funeral Home and later taken to the old home in Johnstown for interment. Funeral services were to be held Wednesday.

FARM TOUR— (continued from page one)

his fields received the early treatment for insects. The cotton fields at the present look as if they will produce from one-half to three-fourths a bale per acre. He also has constructed a number of terraces on his farm which help to preserve the soil. Some dead cotton was observed and Dr. J. R. Johnson suggested a deep rooted legume be planted to reduce the dead cotton. Mr. Jarek indicated that he plans to plant Hubam Clover this fall on this tract of land.

The last stop was at the Tim High-cotton fields had been treated several times and County Agent J. D. Moore said that he had made frequent inspections of this field and also said that the applications of toxephene had greatly reduced the boll weevil and flea hopper infestation.

H. E. Meadows of Waco, entomologist with the Southwestern Spray and Chemical Company, spoke briefly making general suggestions about the cotton crop for the remainder of the season. He said that the fields should be checked for infestation of the insects at least once a week.

Those making the tour expressed their satisfaction and after seeing the beneficial results of early season control measures and soil conserving practices were generally of the opinion that these practices should be carried out on all farms in the county.

Miss Joan Carter is planning to visit friends and relatives in Houston soon.

Mr. and Mrs.
August Henry Halberdier
request the honour of your presence
at the marriage of their daughter
Gloria Mildred
To

Mr. Henry Dolan Fortenberry
on Saturday,
the twenty-second of July
Nineteen-Hundred and fifty
at eight o'clock in the evening
First Baptist Church
Cameron, Texas

**EXCESS COTTON—
(Continued from page one)**
ducer having an interest in the cotton produced on a farm in 1950 where the acreage planted in cotton is knowingly in excess of the farm cotton acreage allotment will not be eligible for any payment under the Agricultural Conservation Program on such farm and on any other farm in which he has an interest.

Under the Marketing Quota Regulations, any excess acreage destroyed must be determined by a representative of the PMA and the producer must bear the expense of measuring which is \$1.00 per plot plowed up or \$2.00 per farm, minimum plus \$1.00 for each additional plot and must be deposited with the treasurer of the PMA.

Alva E. Sanders, Administrative Officer of the Milam County PMA, announced today that the loan rate for Milam County's Grain Sorghum, No. 2 or better is \$1.99 per cwt. Warehouse stored grain sorghum must not contain in excess of 13 percent moisture.

GO TO CHURCH SUNDAY.

**W. W. MARKHAM—
(continued from page one)**
the duties of the office and has endeavored to see that money has been spent in all parts of the Precinct and has not neglected any of the people. He points with pride to the efficient record of the Commissioner's Court, and is deeply grateful for the cooperation he has received during the brief time he has been your Commissioner.

Mr. Markham, last December lead a delegation to Austin to appear before the Highway Commission before the expiration of the Bond Assumption Law Fund Aid, and was successful in securing a designation for a farm-to-market road from Cameron to the river through the Salem community. A substantial portion of this fund was available in his own precinct. A contract is yet to be let for the construction of this road.

Mr. Markham points out that since he has been commissioner for Precinct No. 2 that the County has received some 40 miles of farm-to-market roads and that 20 of these miles of road are in his precinct. Of this 20 miles, 13 miles is a state and Federal project, and 7 miles is a county and state project.

Mr. Markham was high in his praise of the record the court has made as a whole, and points with pride to cooperation that existed among its members, and believes that this court will be able to do great things for Milam County in the way of securing road and other benefits.

Mr. Markham said that he invites all who care to do so to look into the financial record during his terms in the office and feels that he has been able to do a great many worthwhile

things on the income for his precinct. He will greatly appreciate your vote and support on Saturday, July 22, for another term in the office of Commissioner for Precinct No. 2.

**FARMERS COMPLAIN—
(Continued from page one)**
have little conception of the indignity visited upon a farmer who discovers his source of income has been spirited away in the night by the lazy well-to-do's who eat up the substance of the land but produce nothing.

Good melons were selling for \$1 each on the public square in Cameron Saturday morning. Canastates were frowning on this nip at their full purses but were paying the price rather than forego the

delights of such luscious fruit ripened in the deep sand in the sunlight and in the peaceful fields now witnessing the inroads of these nocturnal thieves.

Stealing melons may be conceded by some as legitimate past time for village cut-ups but it is a serious matter, nevertheless, with those who are on the losing end of the situation. More power to the Pinkerton men now on the trail of these thieves.

Mid-Century Fiesta at LSU — Story Page 2

Louisiana State Finishes Mid-Century Fiesta

Louisiana State University held a Mid-Century celebration April 13-14. The event was partly to dedicate seven new buildings and partly, as President Harold W. Stoke said, "to take stock of ourselves; to look back to where we have come from and to think about where we're going."

It was a far cry from the 1950 theme of atomic energy, discussed by David E. Lilienthal, to the 1860 beginnings of Latin and literature taught to 19 students by five professors.

In the years between, the University—which started out as the Louisiana State Seminary of Learning—has been burned out once, moved three times, and has done its part in four wars. As a matter of fact, one year after L.S.U. opened, its entire student enrollment with one exception enlisted in the Confederate forces while its president, Gen. William Sherman, took over his command in the Federal Army.

Today Louisiana State University and Agricultural and Mechanical College has an enrollment of 8286, and includes three junior colleges and the school of medicine in New Orleans.

The Baton Rouge main campus occupies 4,725 acres on the banks of the Mississippi, and its physical plant is valued at \$39,000,000.

There is an international air to the L.S.U. of today. Forty nations are represented in its student body, with the great majority—nearly 400—from the Latin American countries. The well-known horticulture and geology departments, and the Audubon Sugar School which is the largest in the world and one of three in existence, are major drawing cards for these foreign students.

A unique language laboratory, where English is taught to foreign students and American students can learn perfect pronunciation and oral understanding of foreign tongues, provides instruction with recordings of seven different languages.

Practical application of "book learnin'" is a prime objective of L.S.U.'s scientific and technical departments.

Geology students spend six weeks at the University's summer camp in Colorado, in rugged exploration and research. Biology students have the facilities of the Marine Biology Laboratory at Grand Isle. Forestry majors are required to spend some summer weeks at a timber camp near one of Louisiana's principal lumber mill areas.

Agriculture students, with more than 4,000 acres of experimental fields bordering the campus and a prize herd of livestock to care for, can get as much practical experience as they wish.

Petroleum engineering students have the rare benefit of an oil field right on the campus, with a half-mile field trip taking them into the heart of an operating area. For those in hydraulic engineering, special application of flood control is studied at the nearby U. S. Engineers project in Vicksburg, Miss.

Future radio announcers and engineers operate WLSU, University FM station that broadcasts five days weekly. For fledgling journalists and advertising majors, the "Daily Reveille" is a student newspaper that has been published, in one form or another, since 1872.

The newest science of them all, research with the use of radioactive material, is also a part of L.S.U. instruction now. A radio-chemical laboratory, for research and for training in the use of radio-isotopes, was opened last December, with Oak Ridge-trained physicists in charge.

As a state-supported institution, L.S.U. offers a University education

at the lowest possible cost to the student. A generous number of scholarships are provided to deserving young people; a student loan fund helps out in emergencies, and part-time jobs are available for all who want them.

Students act as seamstresses in the speech wardrobe department; take care of Mike, the Bengal tiger mascot; play recorded programs from the Memorial Tower at noon and at 6:30 p.m.; work in the home economics day nursery... blow glass for chemistry and physics projects; act as accompanists, translators, typists, exam paper graders.

The highest priced room in the University's beautiful new dormitories is \$4.50 per week, and a boy can live in the stadium rooms for \$2.00 per week. A mere \$5.00 per semester gives a student all medical

benefits in the 100-bed student hospital.

The high percentage of veteran students, and the change to a 12-year State high school system, has brought maturity to the collegiate atmosphere and raised the scholastic average on the campus. But the students manage to have their fun, nevertheless.

Such annual events as election of the "Darling of L.S.U."; the Ag Jamboree; the Military Ball; the Pan-American Fiesta; the Block and Bridle rodeo; the Forestry Log Roll; the Sigma Chi pirogue race—all these and many more add their collegiate color to the L.S.U. scene.

The big event of the spring is the grand opera production, presented by L.S.U.'s graduate opera department which is one of a handful in the nation. Leading roles are sung by advanced students pointing to-

ward an operatic career, with the walk-on and chorus parts enthusiastically handled by students from all academic fields.

The graduation candidates of last June, 1800 strong; were announced as the biggest class in L.S.U.'s history and a slack-off predicted for the future. Contrary to all analysis, however, this year's class will be larger, with more than 1900 candidates for degrees.

Crowded wartime housing conditions have been largely overcome with the addition of the new buildings dedicated in the "L.S.U. at Mid-Century" program. Three new dormitories bring housing facilities for men to 4500, and two new residence halls for women make total facilities for 1200.

The other recently completed structures are the Agronomy-Horticulture building, and the Agricultural Engineering building.

So much for the past and present. As for the future of L.S.U.—major goals include an expansion and building up of graduate work; more emphasis on research; a consolidation of gains already made in departments that have mushroomed in the past decade or two.

Said President Stoke in his Mid-Century address: "The next half of our country will be an age of power. L.S.U. must be an institution for that age."

Thousands Of 4-H Members Join In Drive For Safety

Conservation of human resources, a prime objective of 4-H Club work, is being achieved nationally by members sharing in the responsibility for improving individual, family and community health, and safeguarding lives against accident.

Rural youth throughout this State are joining in the campaign by enrolling in the 1950 National 4-H Safety and Health Programs. Both programs offer special awards for superior records to individual members and groups.

In the 4-H Safety program sterling silver medals are given by General Motors for five winning members in each county. Also, the county reporting the most outstanding 4-H safety program this year will receive a plaque of merit, appropriately embossed. The State champion will get an all-expense trip to the National 4-H Club Congress in Chicago next November. Eight national winners selected from the State champions will be awarded a \$300 college scholarship each.

In the 4-H Health activity, attractive two-color certificates symbolizing health will be given to a

maximum of four clubs in each county conducting the best health improvement program. In addition, \$20 cash awards to be used for health education will be awarded to the ten 4-H Clubs in the State which carry on the best program. The member making the greatest progress in health improvement will receive an all-expense trip to the National 4-H Club Congress. The national awards, also provided by Kellogg Company, Battle Creek, Mich., include a \$100 U. S. Savings Bond and a blue ribbon to each member of the Blue Award group. The bond is to be used by the members to start a fund for protecting and maintaining their personal health.

Both of these programs are conducted under the direction of the Cooperative Extension Service. Complete information may be obtained from County Extension Agents.

Preacher Carries Sermon On Wheels

If people can't go to church, let the church go to them, argued the Rev. Sam T. Mayo. Now he and his wife are driving a 30-foot bus-chapel through the camps of migrant farm workers in the South.

While they are riding, the bus is a two-room home for the minister and his wife. When they stop for a prayer meeting they whisk out an organ, seats for 40, public address system, movie projector and library desk, not to mention hymn books and smaller requisites.

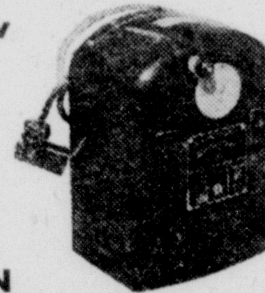

A folding partition in the bus divides the chapel into two Sunday school rooms.

The combination bus and chapel has the approval of the Southern Baptist Convention as a means of reaching thousands of migrant workers who might otherwise receive no spiritual comfort.

The Mayos left Atlanta with their first stop scheduled in Bradentown, Fla., where they held a service for winter vegetables harvesters. Then they headed for Albany, La.

Do You Know Your Poison Flower Family? Here's Southwest Group

Some plants, while entirely harmless, have been given a bad reputation because of superstitious beliefs. While there are others—maybe right in your midst—that are deadly poisonous to man and beast. There may be others that can cause much suffering, if not actual death. Some poisonous plants are dangerous. Certain parts of some plants may be harmful, while other parts of the same plant may be unoffensive, or even beneficial.

Since none of the plants are marked with danger warnings, many people are unaware of their danger, so it is our duty to learn as much as possible about the plants with which we are associated.

Poison ivy and poison oak are perhaps the most widespread of any plant enemies. Much has been written about these plants, so most people should be able to recognize them on sight. It is well to remember that the plants have three leaflets, greenish-white flowers, followed by waxy white berries.

Poison sumac, a member of the same family as the poison ivy and poison oak, is not as common as its relatives. Its usual habitat is low, wet grounds, and another way to distinguish it from other sumac is its leaves—they are large and have from 7 to 13 leaflets. Like the ivy and oak, its fruit consists of white berries.

These Plants Are Bad

These plants are all bad—every part of them contains the poison, which is nonvolatile oil. The sap is especially virulent. Any one susceptible can get the poison by merely rubbing against a plant, or by handling any object that has been in contact with it, or by letting the smoke of a burning plant touch the skin. While, perhaps not fatal, poisoning from the above mentioned plants can cause great suffering.

Two plants widely used because of their ornamental value are the black locust and elderberry, which are harmless enough as ornaments, yet the bark of the elderberry, and the bark and seeds of the locust contain a poisonous substance.

The oleander, a popular ornamental plant, found in many home grounds and parks, is one of the most poisonous plants known. Every part of this beautiful shrub, roots, stems, leaves and blossoms are very dangerous.

Jessamine, a slender vine of the logania family, has beautiful yellow, trumpet-shaped flowers, with fragrance similar to the true jasmine, found in many areas, is poisonous to man, as well as animals. All parts of the plant are poisonous, the roots yielding a powerful drug. While there is no record that honey made from these flowers has been harmful to humans, it is said that the nectar of the flowers kills young bees. This wild plant should not be confused with *Jasimum primulinum* and related species.

Pokeberry Roots Deadly

Pokeberry, well known to most all Southerners, as a source of early "greens," should be gathered with care because the roots contain a

They're Hiring the Bees to Go to Work

The honeybee, the bumblebee and all other insects which thrive on the nectar of flowers are apostles of abundance. Without bees our fruit crops would be much smaller, and there soon would be a shortage of alfalfa and other clover seeds.

In Washington and Oregon, as well as in the Texas Rio Grande Valley, orchardists pay as much as \$5 per stand for the use of bees. Some annually purchase packages of bees and turn them loose to pollinate the blossoms in their orchards. So thoroughly do the bees accomplish this task, that it has become the practice to keep them shut in their hives until late in the afternoon. This limits the number of blossoms pollinated; it keeps the trees from becoming overloaded with fruit and saves the cost of thinning.

Five dollars a day for the use of a hive of bees for just a few hours may seem expensive, but they make money for the orchardist.

deadly poison. The berries, relished by birds, should not be eaten by humans because it is said on good authority there are several instances where children were poisoned by eating ripe pokeberries. When properly processed, the roots are valuable for their medicinal properties.

Crow Poison, also known as Scentless Wild Onion, has been mistaken for the edible wild onion and eaten with dire results. The roots and leaves are not only poisonous to man, but to cattle as well.

Jimson Weed is another plant to be avoided, even though the leaves and seeds are used medicinally. Cattle will not eat the green plant because of the unpleasant odor and

taste, but they have been poisoned by eating the dried leaves in hay. The seeds are more poisonous than any other part of the plant, however, people have been poisoned by sucking the flowers.

The cocklebur, one of the most annoying weeds, has a wide distribution. It is most poisonous in the seedling stage and has killed hogs, cattle and sheep which ate the seeds or young plants.

Snow on the Mountain, conspicuous in late summer because of its showy white-margined foliage on the upper part of the stems, is another plant which is well to avoid. Both the foliage and the milky sap is poisonous and not only have cattle been poisoned by chewing the leaves, but persons sensitive to vegetable poisoning have developed severe irritation by merely handling the plant.

Mountain Laurel, one of our most beautiful evergreen shrubs, is not greatly admired by ranchers because cattle and sheep are frequently killed by eating the leaves.

Snakeroot, more commonly known as "poison weed" is poisonous and will cause almost sudden death when eaten by cattle.

Mistletoe and Buckeye

There are known instances where mistletoe berries eaten by children caused their deaths. Leaves and the fruit of the buckeye are poisonous if eaten, but may be handled in all safety.

The larkspur, one of our pretty true-blue flowers, blooming early in the spring, is used for medicinal purposes, but is poisonous to live stock.

Belladonna and foxglove, biennial plants cultivated for ornamental purposes, yield a well-known drug used in a variety of ailments, but the drug is so powerful and poisonous it should be used only by skilled physicians. It is the roots of these plants that contain most poisonous properties, however, the leaves are not entirely free of poison.

The Castor Bean or "Palm Christi," widely used for ornamental pur-

July Foods

For a delicious dessert after a hearty meal, try serving broiled grapefruit prepared as follows.

Use three large grapefruit. Cut them into halves, remove their seeds and core, and loosen the sections by cutting around them with a curved knife. Pour off the juice.

Sprinkle grapefruit halves with brown sugar, mace and cinnamon and dot with butter. Broil them 10 minutes, or until delicately browned. Serve immediately.

Toasted bread cubes are delicious with soups, salads or puddings. Make them by cutting crusts off a number of bread slices, cutting the slices into small cubes. Place them on a cookie sheet and toast them in a slow oven until the cubes are golden brown on all sides.

Flatten hamburgers with the palm of your hand and then cut them with a cookie cutter for a time-saving method. Just for a change, you might cut them into squares instead of rounds.

poses, should not be taken too lightly. The seeds of this plant contain a poisonous compound toxic to man and beast. Oil obtained from the seeds is used in the medicine, commonly known as castor oil.

The Bull Nettle, a close relative of the Castor Bean, is another plant to be feared—and with just cause. While the plant, covered with long white hairs and producing beautiful tube-rose-like blossoms, is pretty, it should be avoided. The poison hairs break off in the skin of anyone upon the slightest contact with the plant and produce a stinging, burning and itching sensation—quite painful if not fatal!

Loco weed is another plant that produces beautiful flowers, purple, pea-shaped in elongated clusters, but this plant is very poisonous to cattle and horses.—Jewell Casey in the "Southwestern Livestock and Crops."

Jersey Makes A Cool Frock

You forget about fancy fashions when summer comes. Then your greatest demand in clothing is extreme comfort.

Of course, few women would think of sacrificing style for comfort. Designers are aware of this. So they've created a dress you'll live in. A jersey dress is the result of the sensible combination of style and comfort.

What do you look for in a general-wear dress? If you look for a clean-cut, button neckline, unpressed pleats, and uncluttered simplicity, this jersey dress will end your search, for it has every one of these features.

You'll like jersey because it retains its freshness on the warmest day. It shrugs off wrinkles and dust, too, and doesn't stretch or sag. And besides being wonderfully wearable, this fabric washes beautifully besides.

And then, because those torrid summer days will be here before long, you'll appreciate jersey because it not only looks cool, but also feels cool.

If you're a practical-minded woman whose fashion tastes are meticulous and demanding, a jersey dress is for you.

Fire Putter-Outer

Should your tent, cabin or trailer catch fire, an emergency extinguisher can be quickly made by dumping half a box of common baking soda into a pail of water. The soda does the trick.

Long May She Wave!

Old Glory, emblem of freedom and the right to live under the endless canopy of Great Americanism, will have her day come July Fourth. Although a myriad of attractions throughout the nation will draw attention of millions of carefree Americans for the day, the Stars and Stripes forever will command the reverence and respect of those who realize what it means to be an American.

These are trying times. They are uncertain times for many. But for those who keep the faith in the fortunes fought for by our forbears, the future beams bright around the furls of the American Flag.

Old Glory gives inspiration. She radiates confidence and determination of a free people. And more than ever, she shouts in mute silence the constant reminder that freedom is something to guard . . . not an inherent gift. All freedoms enjoyed by Americans today have been wrung from the blood- and sweat-soaked sacrifices of God-fearing men and women who came before us.

These publications, in their humble way, realize that freedom of merchandising and freedom of economy is no less important than the other rights of Americans. We join millions of others in profound gratitude for our blessings today.

Yes, history may tell future generations of our uncertainties. But it must also add that those who kept the faith under the shadow of Old Glory were the welding flux of progress in the past to progress of the future.

The Southwest Magazine salutes Old Glory!

Early Marketing of Cattle Pays Profit

Many cattlemen in Mississippi, Alabama and other southern states are now marketing their slaughter cattle off grass in March, April, May and June rather than in the fall because of the better prices they bring. This avoids competition with the heavy run of range cattle during the fall.

The phenomenal development of winter and early spring grazing farm grasses and legumes is the key to the new program in this area. Such pastures produce beef more profitably than most summer and fall pastures. Furthermore, those who buy cattle in the fall for winter grazing and sell them in the spring find that the profit margin is favorable.

Rustproof oats, such legumes as white Dutch or crimson clover, and Caley peas, separately or in combinations, are the crops showing best grazing results in the deep South. Gains of from 200 to 300 pounds per head have been made during the winter.

A pasture planted in August or September at the rate of 100 pounds of oats per acre, if properly fertilized, is ready to graze in November.

Hot Hog Is Costly Item

When hogs get hot, it costs you money whether any die or not. How much it costs wasn't known until California Experiment Station set up equipment to make exact measurement possible. The findings show wasted feed is the biggest loss item.

Hogs that ranged from 166 to 260 pounds made a hundredweight of gain on 350 pounds of feed when the thermometer stood at 60 degrees. When temperatures went to 91 in a dry atmosphere, it took 1,296 pounds to make the same gain. That's a waste of 72 bushels of grain out of each 100 eaten.

When the weather gets much above 90, fat hogs may die. They lack a cooling system to withstand dry heat. When a man or a horse gets hot, he begins to sweat. Evaporating perspiration is cooling. When a hog gets hot, he runs a fever. The effect is the same as fever in man. One 223-pound barrow in the California tests ran temperatures of 106½ to 109 degrees when he was kept five days on a dry floor at 100 degrees. He died the fifth day. Some hogs survived that ordeal, but they had fever up to 108.7 degrees.

A temperature of 75 degrees was the most favorable for pigs weighing 70 to 144 pounds. At that point, they gained 100 pounds on 230 to 240 pounds of feed. When the temperature was raised to 100, it took 800 pounds of feed to make the same gain.

You Know?

Support prices have been removed from all chickens and turkeys for the remainder of 1950, but that supports remain for eggs?

In 1949 the average death loss in all chickens laying flocks of the United States was 19.1 per cent?

Ninety per cent of all chicks hatched last year came from commercial hatcheries, and that only 10 per cent were hatched on farms?

Many poultry producers now inject hormone pellets into growing poultry as a means of speeding growth and improving market quality?

Diseases known to be transmitted through hatching eggs to chicks include pullorum, leucosis, typhoid, para-typhoid; also, possibly sinusitis in turkeys?

23 Million Cows In World Provide Fourth Of Food

With production per cow at an all-time high and per capita consumption on the increase U. S. consumers are using more milk than in pre-war days, according to a new survey by the Milk Industry Foundation.

Fluid milk consumption alone is increasing in nearly all of the principal markets and would show high percentage gains if cream sales reduced during the war would return to pre-war levels. Milk production per cow is averaging almost 2500 quarts a year and per capita consumption of fluid milk and cream together is 13% above pre-war averages.

Milk prices to the consumer are less than the average for all foods. The latest government index figure for home-delivered milk is 165 compared to 196 for all foods with the 1935-1939 average as the base of 100.

One-Fourth of Foods

Milk and its products comprise around one-fourth of the foods consumed annually by the average American and 60,000,000 quarts of fresh milk and cream a day are distributed to consumers through stores and home deliveries.

Milk in this country today is the best in the world, the Foundation says, and the U. S. system of supply, sanitation, pasteurization and distribution is bringing dairymen here to

study it from throughout the world. The United States is now the greatest dairy nation.

Nearly 23 million cows on three quarters of the Nation's 5,859,000 farms produce the 55,000,000,000 quarts of milk a year which would fill a river 3,000 miles long, 40 feet wide and 3 feet deep.

Around the Earth

In quarts side by side a year's supply would be almost 140 times around the earth. One out of every 15 U. S. families is said to be dependent on milk for a livelihood.

Nearly half of the Nation's milk is used for drinking and cooking. The other half is used for butter, cheese, ice, cream—and a myriad of products ranging from powdered milk to pharmaceuticals. The value of this annual output is estimated at 8 billion dollars.

Milk was more than 14% of 1949 farm cash income excluding government payments; larger than hogs; almost twice wheat; nearly one and a half times poultry and eggs; more than one and one-half times cotton; four times tobacco.

Salt Pay \$1 Pound in Cow

Salt was worth about \$1 a pound for steers in a test at Kansas Experiment Station. In a 327-day growing and fattening period, one lot of steers ate 20.61 pounds of salt apiece. They outgained cattle that got no salt 65 pounds, and sold 50 cents a hundred higher. Lack of salt made less difference in the final finishing period than in wintering and grazing. There the unsalted cattle outgained the others slightly.

Salt was needed most on summer pasture, where unsalted steers gained two pounds a head daily, while those that got salt made gains of 2.62 pounds. Each pound of salt produced six pounds of extra gain.

Steers were wintered on dry blue-stem pasture, prairie hay and one and one-half pounds of soybean pellets. Those that were salted gained 60 pounds apiece and the others 21 pounds.

In another part of the test, steer calves fed silage and soybean pellets made a winter gain of 154 pounds when they got salt, compared to 79 pounds for those not salted. They had better appetites and ate 28 pounds of silage daily. The unsalted calves consumed 26 pounds. Each calf ate 6.1 pounds of salt in the 122-day period. A pound of salt produced more than 12 extra pounds of gain.

A third lot of calves that ate about 1.2 pounds of salt during the winter feeding period made only five pounds less gain than those allowed all the salt they wanted. Here it cost a pound of beef to save a pound of salt.

The National Debt

Our national debt has risen to \$256,000,000,000 and is increasing rapidly. It is gravely dangerous. Millions of people must spend years of unrewarded hard work to pay for it. In fact, one million people, earning \$50 a week would have to work 100 years and turn over their total income to liquidate it if the government were, tomorrow, to end forever its deficit spending.

Southwest Magazine
July Edition 1950

U. S. Millionaires Building Their List

There are now 11,915 millionaires in this country, according to compilers of mailing lists whose business it is to know such things. That figure includes both multimillionaires and the common or single variety; it means that about one American out of every 12,500 or so has a million or more.

Millionaires are increasing — there are 306 more new than in 1946, but the number of multimillionaires declined in the same period by 115, from 975 in 1946 to 860 this year.

According to one of the largest list-compiling agencies, 22,307 persons in the U. S. are worth between \$500,000 and a million; 52,113 have between \$250,000 and half a million; and 170,439 can sign checks for between \$100,000 and a quarter of a million.

Odds And Ends Of News That 'Hit' The Front Page

When Patsy Ruth Ratcliffe, 12, couldn't pay for her pie and root beer, the owner of a Hollywood cafe called police.

She told them she had gone to Hollywood from Gravette, Ark., because "there were only 29 people in town, and all they did was raise chickens."

The officers put her in the juvenile home until her parents could get there.

No matter what he did, Richard Saylor of Hagerstown, Md., couldn't get rid of the buzzing in his new car. Finally he peered under the gas tank—and found a beehive the size of a football.

Fay Cooper, a beekeeper, persuaded the hitch-hikers to leave after four hours of work and a couple of stings.

When Mrs. Charles Wampler of Woodland, Wash., drove to a road project to tell her husband, a construction laborer, their daughter had just died in a hospital, she was in for another shock.

At the job site she was informed her husband's truck had just been wrecked. He, too, was dead.

When Dennis McKeena was born in a New York hospital 10 weeks early and weighing only 27 ounces, doctors gave him once chance in a thousand of living.

Five months later he went home to his mother—and the hospital tore up the bill and marked it paid.

A young farm mother—Mrs. Arthur Sharp, 28, of near Capron, Okla.—who "read about artificial respiration once," saved her 13-month-old son, Tom, from drowning by quick action.

The baby fell into a 10-gallon crock. Mrs. Sharp administered respiration and revived him.

It didn't do Roland F. Eaton of Woonsocket, R. I., much good to steal six pigeons. Four got away and flew back to their coops. Then Eaton was caught and sentenced to 60 days in jail.

Twin brothers, S. M. and G. M. McBride, 92 years old, won the first prize in the annual fiddling contest this year in Athens, Texas.

First thieves stole 100 phonograph records from a locker in Mrs. Harold Chasen's home, in Newark, N. J. A month later they returned and took the locker.

Because a train blocked a crossing for 13 minutes in Glendale, Cal., Patrolman Ardeen C. Meen gave the crew a traffic ticket. A city ordinance limits trains to five-minute stops on crossings.

After breaking her back in an accident last year, Miss Grace C. Brooks of Wilbraham, Mass., returned to ride to two feature prizes at a horsemen's show.

"So it worries you when your husband talks in his sleep?"

"Yes, doctor—he's so indistinct."

TANDY LEATHER COMPANY
P. O. Box 791, Fort Worth 1, Texas

Here Are Some Good Rules to Help Feet

Here are 10 basic rules for foot health issued by the American Foot Care Institute:

1. Wash frequently! Bathe your feet once or even twice a day, dry them thoroughly and use foot powder afterward.
2. Change often! Never wear the same pair of shoes two days in succession, and change socks or stockings once or twice a day.
3. Trim right! Cut your toenails straight across, not shorter than the flesh.
4. Wear right! Wear all-leather shoes, both soles and uppers, and pick the right shoe for the right occasion.
5. Fit right! Be sure you have the proper size of shoe, the proper last of shoe and the proper size of stocking (a half-inch longer than longest toe).
6. Exercise! Limber up your feet at intervals; they have muscles too, remember. Wiggle your toes!
7. Keep dry! Don't needlessly get your feet wet and don't let them stay wet from perspiration.
8. Walk right! Cultivate good posture and give your feet proper support with all-leather shoes.
9. Don't neglect! Examine your own and your children's feet at frequent intervals to guard against ailments.
10. Take care! Don't be a bathroom surgeon. If your feet need attention, consult a qualified chiropodist or pediatrist.

Flowers which do not like to be transplanted include annual poppies, salpiglossis, mignonette, annual phlox. If necessary to transplant them the seedlings should be grown in small pots so they can be moved without disturbing their roots.

Those Loud Ties Tell The Story Of Man

Chicago is a green town, Baltimore purple, Dallas blue, Philadelphia and Boston red! Of course, if you're color blind you can skip the whole thing, but at least color is the chart to American cities—the color of men's neckties, that is.

This is the claim of the Men's Tie Foundation, Inc., and apparently these boys know what they're talking about because they have run a study of color preferences into a \$190,000,000 annual business that finds the average American male owning 18 neckties. But who buys him his neckties?

His mother and his wife and his sisters and his cousins and his aunts, the perennial petticoat shoppers who plunk down the cash for 85 per cent of all neckwear sold.

That halter placed around the neck of the whimpering male by his gift-minded helpmeet actually has a history—of a mere 300 years. Beards were worn before that. The name "cravat" was a vulgarization of the name "Croat", after a crack regiment of Croats visited Paris in 1660 wearing bright-colored neckerchiefs.

They Went Wild

In the 18th century Europe went wild for the tie that binds, ranging from miniature tapestries to James II of England's three cravats for which he paid \$600, a paltry sum compared to the \$21,500-necktie offered for sale recently by a Miami Beach, Florida, haberdasher. Lessons were taught and books were written on the art of tying.

Historic June Dates

- June 18—Napoleon defeated at Waterloo, 1815.
- June 19—Statue of Liberty brought to America, 1885.
- June 20—Morse patent on the telegraph issued, 1840.
- June 21—"Jubilee Day" in England, 1887.
- June 22—Continental Congress issued first money, 1776.
- June 23—Grant's tomb completed, 1897.
- June 24—Cabot discovered the North American continent, 1497.

Here Are Few Guests' Tips

A frequent weekend guest in other people's homes, I've made up a little list of rules which I try to follow to make my stay as pleasant as possible for the host and hostess. Here they are:

1. Arrive at the time you're expected. If the automobile trip is long, give yourself extra time to be certain you'll make it. Never burden your hostess with worry and anxiety by failing to arrive when you said you would.
2. Take all the luggage and equipment you want, but take only a small suitcase or two into the house. Keep the extra sweaters, tennis racquets and play shoes in the car.
3. Quite often the presence of an extra car simplifies things for the family you're visiting. Be certain to volunteer its availability for shopping, side trips, running into town and other uses.
4. You will, of course, send a "thank you" letter, but a friend of mine does the custom one better. He stops at his host's favorite service station, leaves the money and asks the attendant to give his friend's car a wash job the next time it comes in—a very pleasant and thoughtful surprise.—The Handy Man.

Encephalitis Wreaks Toll

Equine encephalomyelitis (sleeping sickness), a disease of the brain and spinal cord of horses and mules, is widespread throughout the United States and Canada. Since 1930, when the causative agent—a filterable virus—was definitely established, an estimated one and one-fourth million horses have been effected. The disease occurs chiefly in horses and mules, but the same virus that causes the disease in these animals can cause sleeping sickness, "encephalitis," in man.

Two types of equine encephalomyelitis virus are present in the United States, the Eastern and the Western virus. The Eastern type virus appears to be confined mainly to the Atlantic Seaboard and Gulf Coast States, with few exceptions, while the Western type virus is found chiefly west of the Appalachian Mountains. These strains, however, are spreading into new areas and, in many sections, such as Texas, Alabama, Missouri and Michigan, both strains have been found to occur in the same locality. Equine encephalomyelitis is transmitted chiefly by blood-sucking insects, particularly the mosquito. This seems to account for the prevalence of the disease during the insect season, especially among animals pasturing adjacent to low, marshy areas.

Sleeping sickness is rarely reported before May or June except in the South, and disappears with frost in the fall. The Eastern type of virus causes death in more than 90 per cent of the infected animals, while the Western type usually has a lower death rate. Many horses that recover become dummies and are economically worthless as farm animals.

The time to make notes about tulips is when they are in flower this spring. Bulbs must be planted in the fall, when memories of the varieties we liked have grown dim.

as Jacques Fath, Christian Dior, Tina Leser and Schiaparelli are leaping into the field of men's neckwear—which the women wind up stealing!

The tie is a tell-tale, too, a sure sign of the wearer's economic status, claims one of Chicago's biggest necktie manufacturers. He insists that when the wearer is in the chips, his tie is bright, active, but when he is in the dumps, his tie looks like he picked it up there.

In case you would like to classify yourself and your neckwear here goes: any tie under \$5 is just a plain necktie; those over \$5 are cravats and are spoken of more reverently; those over \$15, the hand-painted jobs, are "creations". But we've got news for you, the average price paid for one is \$1.50.

Bob Hope, Toots Shor, Frank Sinatra and Winston Churchill are all tie collectors. Walter Winchell wears only navy blue while Spencer Tracy and Cary Grant wear only solid colors. As a group, doctors are the strongest prescribers to loud ties, preferring red, which is the all-time national favorite.

Should you want to take a tip from fashion counselors, short, stout men should wear ties with vertical designs to give them height, small men should never wear noisy ties as they're not big enough to carry "busy" clothes.

With striped suits, select small figures or solid colors, with plaid suits, checks or bold stripes, and with tweeds, striped knitted ties.

The RANGE RIDER—and The EDITORS

By WELDON OWENS

THE ROUND ROCK (Texas) LEADER: At the organization meeting of the board of trustees of the Texas Baptist Children's Home, held here last week, Rev. J. I. Cartlidge, pastor of Seventh and James Street Baptist Church at Waco, was named chairman of the 21-member board. Rev. D. E. Simpson, pastor of the Round Rock Baptist Church, was named secretary and treasurer. Rev. Herbert D. Dollahite, pastor of the Procter Street Baptist Church at Port Arthur, who was pastor of the Round Rock church several years ago, was chosen as Superintendent of the Home. He will assume his duties soon after the first of July.

AL HINDS in The Paducah (Texas) Post: With this issue begins our sixth year at the helm of the Post, and we can truthfully say, in rounding out our fifth year, we have enjoyed working and associating with Cottle-King Countians. Of course, in the newspaper business we have had our ups and downs (but who doesn't). However, it has been our goal and aim through these years to give as complete coverage as possible. We want to again express our sincere thanks for the support of the local merchants, for without them—there just wouldn't be any paper. It is a big responsibility running a newspaper—especially when you serve some 8,000 customers weekly. We certainly appreciate all those tips and leads—as a word spoken here and there often times is the clue to a good, live news story.

GROVER JESSEE in The Hatch (N. M.) Reporter: The influence of taxes on the American family will be uppermost in the minds of members of Congress for the next few weeks. They are seeking the answer to this \$64 question. A group of Congressmen, doing some rough figuring on their own recently, concluded that a family of three persons with an income of \$3,000 pays \$201.60 of that income in corporation income taxes which are included in the prices of the things they buy. A family of four with an income of \$5,000 pays \$316.80, and the same sized family with an income of \$7,500 pays \$414.

IN THE IOWA PARK (Texas) HERALD: An honor guard from Sheppard Air Force Base has been secured by local Amvets to greet the Liberty Bell when it arrives in Iowa Park next Wednesday for a 30-minute stop. The town's mayor and other dignitaries, business people, housewives and young people are expected to crowd the downtown street when Texas' own replica of the famous Liberty Bell arrives. The bell has the identical dimensions of the original and is made of 85-plus per cent copper. The 52 replicas were produced by an ancient bellmaster's formula and have the same tone as the Liberty Bell. Dimensions are: Height over crown, 2 feet, 3 inches. Circumference around the lip, 12 feet. Circumference around the crown, 7 feet, inches. Lip to crown, 3 feet. Thickness at lip, 3 inches. Thickness at crown, 1.25 inches. Weight, 2,080 pounds. Length of clapper, 3 feet, 2 inches. At the conclusion of the Independence Savings Bonds Drive on July 4, one bell will be presented to each state for permanent exhibit.

THE GAINES COUNTY (Texas) NEWS: Clarence Brown, who is Taft's campaign manager, made a good showing against Tom's famed eloquence. At one point he said, "All the Texas bull here today is not being cooked over there at the

barbecue pit. Ben Guill, the new Texas congressman from Pampa, was introduced by Sam Rayburn as a "temporary" Texas representative. He countered by retorting that he didn't mind being called temporary by the speaker of the "temporary" house majority. Gib Sandifer, formerly of Abilene, was master of ceremonies at the barbecue. He made a beaut of a bust while the

Best of the Month

While on a motor trip with a friend through South Georgia, I got into conversation with a local character who spent most of his time on the porch of a "fork-in-the-road" settlement in the turpentine region.

His slowness of speech and deliberate actions caused me to ask him the why and wherefore of his outstanding characteristics.

"Wal, son," he drawled, "hit don't pay nobody to be in a hurry. You allus pass up more than you catch up with!"

• For fun and philosophy about headlines on farms and ranches of the Southwest, Waples-Platter Co. brings you The Range Rider every morning except Sunday.

Owens

program was being broadcast on a national radio chain. In a Texas drawl, he was reading items on the program. His manuscript became mixed up and a sheet dropped from his hand. "I've got some more script here," he said, "but it looks like I've lost the ----- thing." A radio man leaped across the stage and pushed him away from the microphone, then turned and ordered the Navy band to play a march. But the offending phrase was already on the airways.

THE SANTA ANNA (Texas) NEWS: Mayor F. Z. Payne, Nevin E. Trostle, manager of the Brown County Water Improvement District No. 1, and J. C. Darroch, attorney for the water district, met with the Texas Board of Water Engineers in Austin last Friday to confer with the engineers concerning the sale of water to Santa Anna. The board recognized the district's rights to regulate the rates and other matters pertaining to the sale. The state board of engineers approved the proposal of the district and the City of Santa Anna to enter into a long-term contract under which Santa Anna will purchase raw water from Lake Brownwood and pipe it to Santa Anna.

THEY WANT BIRD

New Hampshire legislators are having trouble selecting an official state bird. Poultrymen want the utilitarian New Hampshire chicken, while bird lovers prefer the pert, snow-loving chickadee, observes the National Geographic Society.

Only the tips of stems on New Zealand spinach should be cut for use. New tips will grow, so that a few plants will supply the average family with greens all summer long.

Man Who Draws Famous Cartoon Ignored Talent

How often have you enjoyed "Henry" on comic pages and thought "Gee, I wish I could draw like that"?

Many times, probably. The amusing little fellow in that strip has a way of making people like him and laugh at his antics at the same time. But this article isn't about Henry; it's about Don Trachte, the man who draws.

Mr. Trachte became a cartoonist in spite of himself. He always drew well even as a child, but he turned a deaf ear when his family urged

him to make a permanent career of cartooning.

Then he won a cartooning contest. That gave him the inspiration to work hard to develop his natural talent for drawing and a determination to succeed.

As a teen-ager, Mr. Trachte studied under Carl Anderson in a Madison (Wis.) night school.

"Most of the class dropped out before the end," says Mr. Trachte, "but four of us stuck with Anderson to the finish."

The students in the class were in on the birth of "Henry."

One night Mr. Anderson drew the little bald-headed boy in a cartoon showing Henry and another boy with their heads tucked under the belly of a sway-backed horse.

"Does your head feel warmer, now, Henry?" was the caption.

Mr. Anderson sold that cartoon to a magazine and a popular new cartoon character began to amuse America. After two years in the magazine, Henry moved to King Features Syndicate. Mr. Anderson still was drawing him, but Mr. Trachte then became his assistant. After army service Mr. Trachte returned, began drawing "Henry," and has been doing the comical little fellow ever since.

Movie Stars

Marie Wilson is appearing in a stage drama, "The School for Scandal," in Hollywood. Rehearsal for the play amounts to about ten hours a day. For her appearance, Miss Wilson receives a token payment of \$25.

Ruby Keeler, who is currently thrilling New York City audiences with her dancing, insists she is not making a "comeback." "This is fun and sort of a change," she said.

James Cagney, a veteran of movie gunplay, was wounded in the hand when a revolver was discharged accidentally. He was looking for coyotes, he said.

Benita Colman says she fell in love with her husband's voice. "Ronald could have thrilled me just standing there and talking about the weather," she said.

A 19-year-old brunet from Tyler, Tex., is making her screen debut in "The Desert Hawk". Hazel Shaw plays the part of a sultry harem queen in the picture and, it is said, she shows a great deal of promise as an actress. Miss Shaw is pictured wearing the Egyptian hairdo her film role demands.

Double Wages Due In U. S. Next 30 Year, Survey Shows

WASHINGTON—The average employee's real hourly wages will double in about 30 years if production per manhour continues to rise at the same average rate as in the past.

This prospect was held out by the Research and Policy Committee of the Committee for Economic Development (CED) in a Statement on National Policy entitled "How to Raise Real Wages."

The committee's 8500-word analysis of past progress and future prospects of raising the American worker's standard of living was released here at a news conference conducted by CED's new Chairman, Marion B. Folsom, treasurer and director of Eastman Kodak Co., and William A. Patterson, chairman of the subcommittee and president of United Air Lines. Pointing out that "real wages are what money wages can buy," the committee noted that "the problem of raising the standard of living of wage earners is primarily one of raising real wages."

"In the last 50 years real wages per hour in the United States have increased more than three-fold. Today the average employee receives about \$1.33 an hour. Back in 1900 the average was about 43 cents an hour in terms of 1949 prices. This represents an increase of approximately 2.5 per cent per manhour per year," the committee said. Allowing for changes in prices, an hour's work of an average employee today can buy more than three times as much in goods and services as an hour of work 50 years ago.

"Success in raising real wages is in the main a matter of increasing output per man-hour. It is also a matter of keeping people steadily at work," the CED Research and Policy Committee said, in summarizing its conclusions.

Whole World Represented By Life In Circus Tents

That the circus is "emphatically American" is the impression one gets when going behind the scenes of the "Greatest Show on Earth" to talk with the performers.

As America is made up of many nationalities, all living in close harmony, so is the Ringling Brothers and Barnum and Bailey Circus, with people from 28 different countries on its payroll.

John Ringling North, president and producer of the big circus, goes abroad every year in search of talent.

Dane Marries German

For instance, there's the Danish mother who joined a European circus at the age of 16. She met her German husband, who had been with the show since he was 13. Their eight-year-old boy speaks three languages now, having "picked up English in just a few weeks," according to his mother, who added, "I teach him four hours every day. He is learning now to read and write. We feel it is important for him to do this before he enters an American school."

"You saw our act?" she asked. "No, I am not afraid my little boy will fall. But I am always there to help. When the elephant steps on the springboard our son sails through the air—oh, so high up—and lands in the chair. It is quite a trick, yes?"

Another star is the 12-year-old daughter of two other performers. "I taught her," said the father. "My wife, of course, helped too. We three traveled throughout Europe."

The climax of their special act is when the child stands erect—upside down—supported only by one hand on her father's head.

Down the hall of the circus "backyard" came a brilliantly spangled trapeze performer with her child, who was festively dressed.

"This is our second season," the little girl said glibly. "Daddy is in the elephant act." Her mother proudly added, "she spoke no English when we came to this country. Now she is in junior high in Sarasota, Fla. I keep up her studies while we travel."

Some parents tutor their children; other subscribe to correspondence school courses. Education is by no means neglected.

Likes Circus Life

A young Swedish mother clasped the hand of her little boy.

"He does not understand English yet," she explained as he voluntarily stepped forward and shook hands. "Yes, his yellow suit with gold braid does go well with his complexion. Like the circus? But of course. He knows no other life. We all three like it."

The little lady clown, one of whose roles is that of the cat and the fiddle, has been married to her clown husband more than 20 years.

"There is no chance to get restless or tired of each other when you're traveling with the circus," she said. "All the married folk seem to stay married like we do."

Many circus people met and married while both were performers. In two or three cases the husband of the wife came into the circus after marriage so they could work together under the big top.

Dancer Joins Circus

A man and a wife who were a dance team for some time decided

to transfer their activities to Ringling Brothers.

"We wouldn't give it up for anything," the husband said. "This is the life. No rent to pay for at least eight months in the year."

"No dishes to wash, no meals to prepare," his wife added. "We're fed fine in the cookhouse. And the circus has a doctor, too."

Here her husband interrupted, "don't need doctoring very often. We're outdoors a good share of the time during the summer."

Retired Giant of Circus Is Master In Sales Circles

The thing that Jack Earle, of New York City, hated most about being a circus giant was having people ask: "How's the weather up there?"

"I figure I was asked that question at least 10,000 times," recalls Earle with a grim smile.

At 44 and still standing 8 feet, 6½ inches, he is happy in his new career as "the world's tallest traveling salesman."

"One day I fell off a truck and went blind for more than four months," he said. "The injury hastened the growth of a tumor."

Jack's stature shot up weedlike as he was recuperating. One afternoon he went to the circus. Circus officials were amazed to find he was taller than their "world's tallest man," so they hired him.

After a trip to Australia a company hired him to make a three-month good-will tour. Jack made the tour and has remained with the firm to become one of the ablest merchandising specialists in the wine business.

Jack has met only one man taller than himself—Robert Wadlow, the late Alton (Ill.) giant.

"He stood 8 feet, 9¾ inches," Earle said. "I was so flabbergasted when I saw him the only thing I could think to say was, 'How's the weather up there?'"

"He didn't like it either."

IT'S CALLED TODDY

In many Pacific islands a choice native drink is the sap of the coconut palm, called toddy. Some travelers claim it has a clean, sweet taste, somewhat reminiscent of crystallized pears, notes the National Geographic Society. However, it must be consumed fresh, for after a week it will ferment into a concentrated alcoholic poison.

It's Fun and Saves Money to Make Your Dress Out of Sacks

It wasn't Cinderella's fairy god-mother or her magic wand that transformed the feed sacks into this lovely sun dress, but the difference is just as great as that of the pumpkin and the carriage. Three feed sacks, which you can save or if you don't buy feed you can purchase from any feed dealer, a little time and a clever pattern are the only materials you need to help daughter, or yourself, on to getting that summer wardrobe.

Summer shorts and other play clothes with either the midriff top or the shirtwaist can be made from only two sacks. This way, daughter can have three or four pairs at very little cost. Also, if she wants to try her hand at sewing, feed sacks furnish the material for her experiment for just a few cents.

If your wardrobe is complete, you might like to dress up your bedroom with matching curtains, bedspreads and vanity skirts made from feed sacks. The number of sacks required for these will depend on the size of the windows or bed and whether you want them frilly or straight. Either way, you will find many delightful materials to select from. If you are talented in painting, you might prefer to take the plain white sacks, bleach them and hand paint an abstract design spaced as you wish and end up with plenty of originality as well as beauty in your bedroom or guest bedroom.

- Completely weather-stripped.
- Ready to install.

Be Sure You Know The Rayon That's Easiest to Wash

When shopping for an outfit, one question which often puzzles women is: "Which dress will be the most practical in the long run?" And under this category comes the old question: "Which rayons are the most washable?"

The first thing to remember is that washability depends not on the fiber the dress is made of, but on the construction, dyeing and finishing of the material. All rayons, therefore, do not react the same to a washing.

An information label stating that the fabric has passed washing tests will assure its washability.

If no label is attached to the rayon piece you're considering, here is a tip to keep in mind. Smooth, flat rayons, such as rayon sharkskin, are likely to wash well. But fabrics in the crepe family are apt to give trouble, for their tightly-twisted yarns often shrink or stretch when wet.

When you question whether a garment can be washed without a loss of color, clip a small piece of the material from one of the seams and place it in a tumbler of hot soap suds for a few minutes. Do not attempt to wash the garment if the color then runs at all.

If the color does not run, wash the item carefully. A rayon garment which did not have a label attached, or about which you have any doubts, should be washed by hand. Use soft, lukewarm water and be sure all the soap is thoroughly dissolved. Rinse until the water is clear. Wring or squeeze out the water, for wringing is no more injurious to rayon than to other fabrics.

More Games For Teens

CIRCLE AGAIN. Everybody joins hands and marches in a circle. When game leader blows a whistle all stop to listen for a number to be called. The leader chants, "Circle again, but circle . . . 4!" (Any number from 3 to 10 is called). There is a scurry to form smaller circles of that number. All who are left out must go to the losers' pit, a space marked off near the game leader. The leader then calls out "Circle big," and players again march in one circle. When another number is called, players in losers' pit try to get back into the game by invading one of the small circles. Change the game before players tire of it; for the final call use number 10. Then the group is divided into teams for the following game.

GRAB. For each 2 teams (of 10 each) do this: have teams face each other in 2 lines about 15 feet apart. As one team numbers its players 1 to 10, the opposing team does the same beginning at the opposite end. Player number 1 on team A will stand across from player number 10 on team B.

Savoy cabbage is a fine home garden vegetable. It is not often found in markets though its crinkled leaves have a special flavor.

STARTED CAPONS

COST far less than turkey poults, are easier to raise, bring premium prices all year 'round and are preferred by many over turkeys. The demand for CAPONS exceeds the supply.

Picture Window

My husband chose this window
So we could look outside,
And that it fills that mission
Could never be denied.

The thing quite unforeseen, tho,
In all the building din
Was that each curious neighbor—
Nay, all who pass—look in!
—Virginia Scott Miner.

Use Broken China

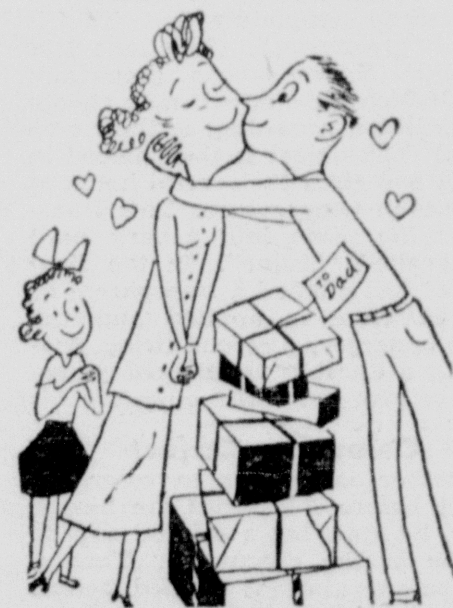

Don't throw away broken teacups and saucers. For that matter, don't discard dinner plates that are broken either. You can create unusual trinket boxes of them. Can't imagine how? It's easy.

Smash the china into small bits. Then procure either a cardboard or wooden box and glue the bits of china to the top and sides of the box. If the china is in various colors, the effect will be beautiful.

When the pieces have dried securely, apply shellac over the whole thing until a smooth surface is achieved. You'll agree that here is a decorative box to enhance your dressing table.

WHITE SWAN

Coffee

This is a typical family picture . . . because a can of White Swan Coffee is in one of those packages . . . and the whole family's happy. Delicious and perfectly blended, White Swan has been a favorite in the Southwest for many generations. Try it today.

Ceramics Art Opens Field Of Beauty

From an insignificant hobby to a vastly flourishing business, Clint G. Websher, owner of the Lone Star Ceramic House in Lubbock, Texas, has developed his ceramic house into a number one enterprise in the ceramics field. The Lone Star Ceramic House is the largest of its kind in the state of Texas and draws students from all over Texas and other surrounding southwestern states.

Since the debut of Lone Star in September, 1948, more than 1000 ceramic students have received training there.

Several Reasons

There are several reasons for the continued growth and popularity of the Lone Star Ceramic House. The primary reason is that the ceramic house in Lubbock manufactures exclusive engobes that do not fill in detail, greenware, and molds with life-like details, created by Larry Nunn, the famous and prolific sculptor from California, which are distributed to ceramics artists and ceramics studios throughout the nation.

Also, through the elimination of costly production of materials and methods of instruction the "cost-conscious" public is now able to economically produce its own ceramic pieces in local studios and schools such as the Lone Star. And now that these schools and studios have been more conveniently located and provided with competent instructors and complete facilities for simplified instruction, more people, young and old, are able to enter the realm of the ceramic world.

Several Steps Used

The production of ceramic pieces involves several steps, with the methods of finishing differing somewhat. First, a hollow or semi-hollow form in clay must be completed by either hand carving or molds and allowed to completely dry. This is called "greenware". (The Lone Star Ceramic House stocks greenware from which the students may choose for finishing according to their own taste.) The object is then placed in a kiln and fired for several hours at an intense temperature. This transforms the piece into a very hard state called "bisque". In the final step of this method a transparent or colored glaze is applied and the piece undergoes a second firing, producing a durable waterproof glassy surface over the entire object.

Color The Object

Another method is to color the object before it reaches the bisque stage, by applying a colored slip or engobe to the greenware. Then a transparent glaze is applied before the second firing. This completes the process. To apply a gold or china finish as a finishing touch, the piece must undergo a third firing in a cooler kiln.

The Lone Star Ceramic House invites inquiries from anyone interested in their products and ceramics classes. The address is 405 Avenue V, Lubbock. Let Lone Star introduce you to this fascinating and creative hobby, one that will forever hold delight and splendor for both you and your friends.

No Pin—Use Comb

Instead of marring the beauty of your felt or straw hat by using a hatpin, sew a small comb, teeth upward, inside the hat in the band at the front. The comb will keep the hat just as securely in place.

The wonders of ceramics never cease as students pour over new creations in the art. Pictured above are Mrs. R. L. Braselton, instructor, standing and watching the progress of a student, Mrs. Janie Carr, at Lone Star Ceramics, Lubbock, Texas.

This Is The Way Some Of Those Saying Got Started

Our American colloquialisms like "biled shirt" and "keep the ball rolling" will make up the "Dictionary of Americanisms" to be published early in 1951 by the University of Chicago. Mitford Mathews, the author, says that many people—from scholars and country editors to businessmen and housewives—have contributed words and expressions.

The two-volume, illustrated dictionary will record words that have come into usage in the United States. First word will be "adobe" and last will be "zwieback"—twice-baked bread.

The expression "boiled shirt" started in the gold rush days. The '49ers had no women to wash their clothes, so they soaked them in the nearest stream or mudhole. When the women finally arrived, they boiled the clothes. Hence the expression "boiled shirt" or "biled shirt" as it was called.

The expression "to keep the ball rolling" began in President Harrison's parade with large balls,

sometimes 30 feet in diameter. Inside the ball was a man to keep the ball rolling. Newspapers quickly coined the popular phrase.

Dry Cleaning Hair

The best substitute for a shampoo is a good "dry cleaning" for your hair. Push two strips of gauze down on the bristles of your brush and brush your hair vigorously until the gauze is soiled. Peel off the gauze, pack the brush with fresh strips and begin again.

Next, dip a piece of cotton in a light cologne. Part your hair in several places and rub the cologne onto the scalp. Use a bath towel to dry your hair thoroughly. Then give the hair a brisk brushing from the scalp outward.

Keep Plenty of Ice

To have enough ice for a big party, empty the refrigerator trays into a bowl or plastic bag and store the cubes in the freezer.

Governor Tells Desires

SANTA FE, N. M.—Gov. Thomas J. Mabry has said that before any dam is built on the Canadian river in West Texas, New Mexico wants these three things:

1. A Canadian river compact between the two states, specifying how the river's water will be divided and used.
2. Assurance that the proposed dam will "comply in all respects with the compact agreement, even though it may require some revision of the present plans".
3. Protection of New Mexico water rights for possible further development in the Conchas dam area northwest of Tucumcari on the Canadian, and for possible future developments on the Ute, Pajarito and Tucumcari creeks downstream from Conchas.

Mabry said he has submitted New Mexico's views to Secretary of the Interior Chapman, to be made part of the Canadian river dam report submitted by the Bureau of Reclamation.

Both the compact-before-funds provision and the assurance that the dam will comply with the compact have been attached as amendments to House bill 2733 which authorizes the dam and is now before Congress.

The dam's capacity would be 1,956,000 acre feet of water. It would store water for municipal and industrial use in the Texas towns of Amarillo, Borger, Lamesa, Levelland, Littlefield, Lubbock, O'Donnell, Pampa, Plainview, Slaton and Tahoka.

The World's Smallest Church---It's In Iowa

The annual feast of St. Anthony Mass was said June 13 at the altar of the smallest church in the world, little St. Anthony of Padua Chapel two miles west of Festina, Iowa. The chapel, 12 by 20 feet, has only four pews—two on each side—and seats only eight people. It was built in 1885.

Story of the smallest church begins in the early 19th century when a French mother promised that if her son, a soldier with Napoleon III, returned safely from war she would build a chapel in honor of the Virgin Mary. The son returned. The mother did not have the opportunity to carry out her wish, but descendants of this family erected the little Roman Catholic Church.

Milk, The Miracle Food; An Ancient Medicine, Too

Milk is one of the oldest known foods. Records exist of cows being milked in 9,000 B. C. The Bible contains many references to milk, one of the best remembered from Exodus 3:8 — "milk and honey." Sanskrit writings 6,000 years old tell how milk is one of the most essential of all foods. Hippocrates recommended milk as a medicine five centuries before Christ. In Ur of the Chaldees a frieze depicts a dairy scene in 3500 B. C. showing milk containers and strainers.

First U. S. Cows

When Christopher Columbus came to America there were no cows, but on his second voyage, in 1495, he brought cattle and other farm animals to the islands of the West Indies.

The first U. S. cows were brought over to the Jamestown Colony in

1611. The few cows that arrived at the Plymouth Colony in 1624 really marked the beginning of the American dairy industry.

The Pilgrims made the mistake of not bringing cows and lack of milk was said to have had a bearing on the high death rate, particularly of children. Cows were required to be brought on later ships.

When the frontier moved westward, the covered wagons were accompanied by cows.

Dairy Breeds

The principal breeds of U. S. dairy cows are: Ayrshire — imported in 1822, origin County Ayr, Scotland; color, red of any shade, mahogany, brown or these colors with white, or white, with each color clearly defined, weighs about 1,150 pounds. Brown Swiss — imported in 1869 from Switzerland; color, a shade of

brown varying from a silver to a dark brown, weighs about 1,400 pounds. Guernsey — imported in 1818, origin Islands of Guernsey and Alderney; color, a shade of fawn with white markings clearly defined, weighs about 1,100 pounds. Holstein — from Holland in 1857; color, black and white markings clearly defined, weighs about 1,500 pounds. Jersey — from Island of Jersey in 1815; color, a shade of fawn with or without white markings, weighs about 1,000 pounds.

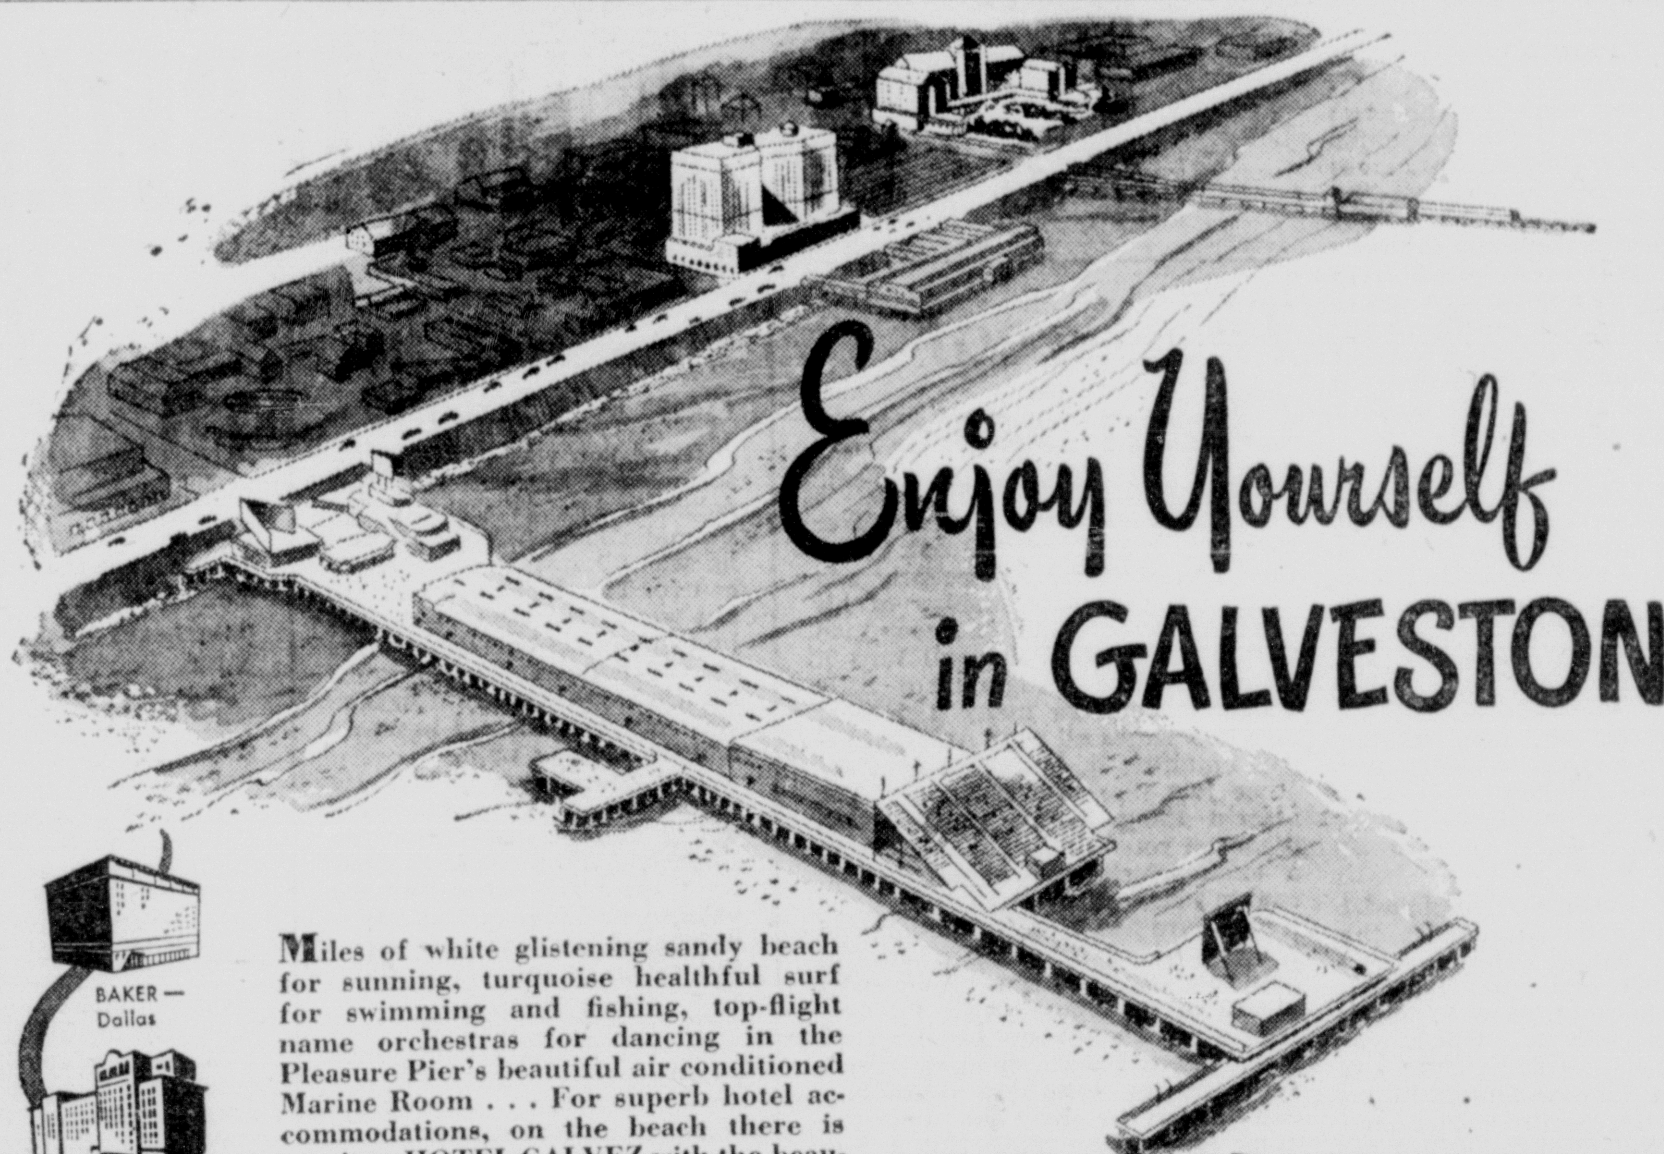

River of Milk

Enough milk is produced annually in America to fill a river 3,000 miles long, 40 feet wide and 3 feet deep. If all of the milk produced in the U. S. in 1949 had been put in quart bottles side by side, the bottles would extend almost 140 times around the earth.

A quart of milk—four glasses—supplies approximately these percentages of the daily nutritive requirements of an average man: calcium 100% plus, riboflavin 93%, phosphorus 61%, protein 49%, vitamin A 31%, thiamin (vitamin B-1) 23%, calories 22%, ascorbic acid 17%, niacin 7%, iron 5%.

There is no waste in milk as every drop can be used and the cost is very low in proportion to food value. Milk is one of the best food investments at any price. Families on low-cost diets need a generous allowance of milk, as diets are limited in variety and lack vital essentials. Milk can make up that deficit at low cost.

Government nutritionists say that in terms of money value, from 1/5 to 1/3 of the allowance for food should be spent for milk and its products.

Miles of white glistening sandy beach for sunning, turquoise healthful surf for swimming and fishing, top-flight name orchestras for dancing in the Pleasure Pier's beautiful air conditioned Marine Room . . . For superb hotel accommodations, on the beach there is gracious HOTEL GALVEZ with the beautiful new private swimming pool for guests, and the metropolitan HOTEL BUCCANEER. In downtown Galveston . . . HOTEL JEAN LA FITTE.

Also in Galveston . . . Coronado Courts, Miramar Courts, Hotel Cavalier, Jack Tar Court Hotel.

SPORTS

If ever you run across a red-headed man who looks like a composite of Sinclair Lewis, the novelist, and John Kieran, the journalist, it might be Walter W. (Red) Smith, generally regarded as the No. 1 sports writer in this country. Slight of build and with a bit of silver in his red hair, this 44-year-old former hardware clerk has become one of the leading literary lights in America.

★ ★ ★

A WRITER FOR the New York Herald-Tribune, Smith lives the ideal life, going south in the spring to cover the baseball training camps and then moving about the nation wherever he pleases to get a look at other major sports spectacles. He's likely to turn up at the Cotton Bowl at Dallas, the Rose Bowl game in Pasadena, Cal., or at one of the big fights. Everywhere he goes he is the cynosure of all eyes.

★ ★ ★

RED SUCCEEDED because his column is earthy yet erudite. Unlike most sports reporters, he pays only passing attention to the major phases of athletic contests, but moves behind the scenes to pick up the bits of drama, pathos and humor that go to make the most interesting stories. He'll even digress from sports entirely if a good yarn comes along. Recently he described the workings of a big circus, a subject that bore no relationship whatsoever to the field of athletics. It made a very readable piece.

★ ★ ★

A WARM MAN who was graduated from Notre Dame in 1927, Red failed as an athlete, moved into a hardware store as a clerk, and then branched out in sports writing when he suddenly discovered a knack for the business of describing football, baseball, boxing and track. Red works hard at his trade carving his sentences bit by bit, then tearing out whole paragraphs to insert new and better ones. When he finishes his column for the day it fairly sparkles. But he's tired.

★ ★ ★

SOME OF Smith's friends insist he became famous because at the outset he decided to write only one column a week and make it good. He seemed to hold to the theory that one good job in a week was better than seven ordinary ones. As a reporter for the now defunct Philadelphia Record, Smith became nationally known. Now he writes for the magazines in addition to the newspapers. One of the strangest things about the man is that he does not realize how well he does his job and how he is admired.—Roger Powers in *Grit*.

Hogan Has 'Sweet' Hershey Contract

HERSHEY, Pa.—Ben Hogan, the newly-crowned National Open golf champion, has signed up for his 10th year as playing professional for the Hershey Country Club.

"It is a pleasure to continue the very pleasant relationships that I have had with Hershey over the past nine years," the Texas-born Hogan told a reporter after the signing.

It was Hogan's first trip to what is listed as his "home course" in three years. He left late in the day for New York.

John B. Sollenberger, president and general manager of Hershey Estates, which includes the country club, declined to disclose Hogan's salary, reputed to be \$7,000 a year.

Hanging a horseshoe over the door may bring you good luck if you do not forget to lock the door before you go to bed.

The Great Open Spaces

By JOE AUSTEL SMALL

Lee B. Smith, the head knocker over at the Sunny Brook Lure Company, dropped by recently and showed me a nifty display of his Layfield lures. I didn't know then that it is the original small lure of America. The dadgummed little booger caught so many fish that lure companies all over America began imitating it, but there isn't another just like it even today. The blasted thing has so much action it makes you think of that story of a stick which was so crooked it couldn't stay still.

This lure has beautiful action, and it's got even a beautifuller story of bass catching. Lee showed me some photos of the biggest bass I'd ever seen—all caught on his Layfield lure. There I was, slumped over a desk, slaving toward a deadline—and he has to show me pulse-tingling photos like that. Not a jury in the country would have convicted me for shooting him! Lee's got a booklet called "Hot Secrets" that's filled with dope on how to catch bass. He'll send it free if you write Sunny Brook Lure Company, Box 104-C, Tyler, Texas.

Uncle Beasley Says:

Kin you emagin' a guy so egner-unt he can't even unnerstand a newspaper! Wal, old man Slap Halliday is jest that. He read in the paper that there's a law in some states agin sportsmen huntin' within 100 yards of the highway. He sez that this is to keep autos frum being hit by a bullet. Any dang ful knows that there's 30 times more people kilt in this country every year frum autos than frum hunters' guns. So I tells Grandpappy Slaphappy that this law ain't fer to keep hunters' bullets frum hittin' cars but to keep the dang gas buggies frum hittin' the hunters!

Black Bass Not Bass

The white bass is the only true brass we have in our fresh waters. The black basses belong to the sun-fish family. Other names for the white bass are silver bass, striped bass, striped lake bass, sand bass, silversides, striper, barfish and grey bass.

Connie's 87; He Can Hit Second

When you reach 87, just try throwing a baseball from the catcher's box to second base. Connie Mack can do it, and he was 87 last December. Of course, Mr. Mack's tosses are not what they used to be, but he can get the ball down there on the bounce. Most persons his age would be afraid to take a chance lest the old heart do a little kicking up.

But not Connie Mack. He moves around as agilely as a young fellow, eats what he likes, and his mind is as clear as a bell. The other day the veteran manager of the Philadelphia Americans was wearing catcher's togs. It was the first time he had put on a uniform in years. Mack manages from the bench in his street clothes.

Fans Clamoring For Short Game

Would you believe it there are persons who insist baseball games are running too long and they ought to be trimmed to fit the evening dinner hour? They contend that a pair of ball games on a single afternoon only upsets the housewife's routine.

One nine-inning game in New York recently lasted 2 hours and 56 minutes.

The pitchers, says Greenberg, are largely responsible for the stringing out of the contests, and according to J. Roy Stockton of the St. Louis Post-Dispatch, Hank has suggested that:

1. The umpires should exert every effort to make the players hustle between innings as they come on and off the field.
2. The pitcher should be required to be in the "on deck" circle instead of waiting in the dugout until his time at bat comes up.
3. The trip from the bullpen to the mound should be speeded.
4. When a pitcher's side is retired he should be required to go to the mound immediately instead of after his teammates do so.

Louis Plans Title Fight

A comeback by Joe Louis was indicated in plans announced by Jim Norris, head of the International Boxing Club, for a September outdoor heavyweight title fight in New York.

Norris said he plans a match involving Lee Savold and Louis, Ezard Charles and Louis or Savold and Charles.

He said he also plans to ask that Charles, the National Boxing Association champion, submit to an examination of his ailing heart late this month, instead of waiting until August, so he can line up the fight.

If Charles remains sidelined, Norris is confident that Louis, who gave up the title in March of last year, will make a comeback against Savold, who recently won the British Empire version of the championship.

A million dollar gate was predicted by Norris in the event Louis makes a comeback, as seems likely because of the IBC's need of a big fall fight.
